## Ulbricht Woos Czechs; War Games on Border

KARLOVY VARY (CP) — Walter Ulbricht, hard-line East German Communist leader, and other high officials of his regime arrived in this West Bohemian spa today for talks with Czechoslovakia's reformists on political and economic relations.

Ulbricht was greeted on his arrival by Czechoslovak party chief Alexander Dubcek, the man he tried to get the Kremlin to unseat and whose liberal reforms he has opposed so vigorously.

Ulbricht is expected to try to solicit further guarantees from Prague leaders against any encroachment of West German influence here.

Under strong pressure, Czech leaders now are expected to slow down whatever ideas they had of developing eco-

nomic and diplomatic ties with the West German republic. Ulbricht also is known to be deeply concerned over Czechoslovakia's attitude to the Warsaw pact and co-operation with the Soviet Army and Soviet security apparatus in halting Western infiltration, particularly from West Germany.

But as the East German leader drove from the airport today he must have seen tourist buses bringing more visitors from West Germany into this spa town, a favorite meeting place for citizens from West and East Germany.

Ulbricht's visit in this small town 100 miles from Prague is expected to be brief—possibly only 24 hours.

East Germany was the first Communist state to sound the alarm against Prague's liberalization moves and, possibly even more than the Moscow leadership, Ulbricht senses in the Czech reform program the death knell of his own brand of government.

Ulbricht was expected to ask the Czechoslovaks for assurances that their dealings with West Germany will not harm the position of his regime.

Among the topics Ulbricht is expected to present is his latest scheme for seeking recognition from the Bonn government, which treats his country as the Soviet zone rather than an independent sovereign country.

The postmaster-general said the drivers had been offered two options—a cash settlement of a week's pay to all permanent drivers or arbitration under a provision in their contract.

He said he had no choice but to provide an alternate service when the drivers rejected the monetary offer and would not submit the dispute to arbitration.

### STRIKE ILLEGAL

The contract calls for the firm to pick up mail at letter boxes, carry it between post offices and transport it to rail or air depots.

Mr. Kierans said the strike is illegal because the workers did not exercise all the options available to them before walking off the job.

The drivers, members of a union affiliated with the Confederation of National Trade

## Nigerians Shooting At Mercy Flights

ADDIS ABABA (AP)—Biafra's chief delegate to the civil war peace talks asked Emperor Haile Selassie today to get the Nigerian government to stop firing on Red Cross mercy flights to starving Biafra. (See story Page 3.)

Prof. Eni Njoku, Biafra's chief representative at the peace talks here, told the emperor that British-made weapons were used against the planes delivering food and medical supplies to his besieged region.

The International Red Cross announced Saturday it has suspended relief flights to Biafra because one of its planes was fired at and another forced to turn back by heavy ground fire. Neither plane, chartered from a Swiss company, was hit.

## One by One, Five Men Collapsed and Died

FORT MYERS, Fla. (AP)—Five men unloading a cargo of fish toppled one by one Sunday into the hold of their boat where they were found dead.

Lee County sheriff's investigator James Loeffler said: "We don't know what killed them or where it came from. They ei-

ther got a whiff of a toxic gas or some sort of chemical poison."

Back from a successful trip, the crew of the 125-foot trawler Novelty and dockworkers were preparing to flood the ship's hold to enable huge pumps to pull out both water and fish.

"When the water was turned on," Loeffler said, "the man holding the hose immediately collapsed and fell into the hatch."

The first man to react, Francis Winter, 53, jumped through the hatch and reached the body when he, too, keeled over.

As he slumped into the hold, his brother, Joseph, 55, raced to the hatchway. He got his feet on the ladder and his hand on the rail when the poison hit him and he fell the rest of the way, Loeffler said.

### COLLAPSED ON DECK

"The other two men never left the deck," the investigator said. "They just looked into the hold and collapsed through the hatch."

He said a sixth man was

felled but rescued by the ship's one-armed cook, Clyde Parrish, and dock worker Roy McNeely. "All of this transpired in less than two minutes," Loeffler said. McNeely descended with a rope while holding his breath and raised the last man to be felled.

Loeffler said Lawrence Finley, 33, was taken to a nearby hospital where he was reported unconscious and in critical condition.

Loeffler said the poison and its source remained unknown.

The U.S. Bureau of Fisheries began an investigation.

## Robinson Quits, Backs Democrats

By RAY KOHN

NEW YORK (AP) — Jackie Robinson, quitting as an aide to Gov. Nelson Rockefeller, says he'll back any Democrat against Richard Nixon.

JACKIE ROBINSON

... sold out'

### CZECHS

Continued from Page 1

ouevres along the borders of Czechoslovakia, only hours after a Moscow announcement said big Warsaw pact exercises in the same area had ended.

The latest Moscow communiqué said Soviet, Polish and East German troops would conduct communications exercises in southern Poland, southern East Germany and the western part of the Ukraine.

### WILL REMIND CZECHS

Uhlrich is one of the most subtle politicians in the Communist world, is expected to reinforce with skill the lessons of Bratislava—a slowdown on the Czechoslovak reforms.

Czech leaders returned from Bratislava where they met with Communists leaders from the Soviet Union, East Germany, Poland, Hungary and Bulgaria, claiming victory.

But Czechoslovaks in general are reconciled to the possibility that some kind of compromise, perhaps on defence and foreign policy question, was the price they had to pay for retaining the essence of reforms at home.

In London, The Guardian reported that Czechoslovakia had to agree to eight points as the price for peace in its talks with the Russians. The article by Lord Bethell was based on information from a leading Czechoslovak journalist, who was not identified.

Bethel reported only two of the concessions: severe restrictions on Czechoslovakia's trade and cultural relations with West Germany, and a campaign in the press emphasizing friendship with the Soviet Union and its allies.

## Young Redhead Sniffs To Spot Pot on Tourist

MOSCOW (Reuters) — Russian customs men in Central Asia have brought in a powerful ally to catch drug smugglers—an attractive young redhead who can sniff out marijuana.

The woman was responsible for catching Anthony P. D. Lorraine, a goateed Briton who resided in Toronto, when he tried to smuggle two pounds five ounces of marijuana into Tashkent June 2, a British embassy spokesman said Monday.

Lorraine, 28, was sentenced to three years in a labor camp for foreigners at a trial that ended Friday in Tashkent. He plans to file an appeal.

A British official who at-

Continued from Page 1

their guns and get a few shots in."

One of the officers who moved in after the first shooting, Sgt. David McGill, said: "We saw a lot of people being hit. They shot into their own crowd."

The police department called a tactical alert shortly after midnight Sunday night, placing 2,000 officers on duty throughout the city. Police cordoned off several blocks centring on Will Rogers Park, just down the street from the area blackened by the 1965 rioting that destroyed \$40,000,000 worth of property.

Firemen dodged sniper fire as they fought blazes they said were deliberately set in two stores and a house.

The summer festival ended Sunday with a parade in which the widows of two murdered Negro leaders, Malcolm X and Medgar Evers, were grand marshals.

### MAIL

Continued from Page 1

Onions, have said that Rod Service effectively laid them off when the postal workers' strike began July 18. Their union says this is a violation of their collective labor agreement.

The company says it cannot afford to pay the workers because it has not received any money from the government since July 18.

The company also says payment to employees under a strike situation is not provided for in the collective agreement.

The drivers have placed pickets at pickup and delivery locations in the city preventing mail movement by post office trucks or by trucks belonging to other government contractors.

### Dog Liver Transplanted

CAIRO (Reuters) — A group of Egyptian doctors transplanted a new liver into a dog without removing its own ailing liver. Al Ahram reported today.

The dog is still living and the doctors are preparing to explain to medical circles the new technique—said to reduce the risk of the body rejecting the transplanted organ by 80 per cent, the authoritative newspaper reported.

Alvin Dyson, an alternate from Richmond, Va., said: "We can live with the ticket and work with it."

If Nixon is elected, Robinson said: "I am firmly convinced that there is going to be more violence, simply because of the threats that he's making in terms of law and order."

"Mr. Nixon has said to us that there must be order in this country before there is progress. I think it's just the other way around."

In 1964, Robinson refused to endorse the candidacy of Barry Goldwater and campaigned for President Johnson.

Bethel reported only two of the concessions: severe restrictions on Czechoslovakia's trade and cultural relations with West Germany, and a campaign in the press emphasizing friendship with the Soviet Union and its allies.

The concessions were made by the Russians.

## N. Viet Bombing Resumes

SAIGON (AP) — U.S. troops guarding the southern approaches to Saigon battled the Viet Cong today at two points nine miles apart.

Helicopters landed more than 1,000 men in rice fields 24 miles south of the city in an attempt to encircle a force estimated at more than 100 guerrillas.

Nine miles farther north and only 15 miles below Saigon, another 300 Americans virtually wiped out a Viet Cong platoon of 40 or so men, according to initial field reports. Only three Americans were reported wounded.

In the air war, U.S. B-52s bombed North Vietnam for the first time in nearly a month while fighter-bombers flew 110 missions Sunday against supply lines in North Vietnam's southern panhandle.

**INFILTRATION SUSPECTED**

Military spokesmen said the B-52s attacked North Vietnamese troops believed preparing to infiltrate into South Vietnam's northernmost provinces.

The B-52s last struck North Vietnam July 18.

Forty bombers dropped an estimated 2,500 tons of explosives on targets just inside North Vietnam and southward to within 21 miles of Saigon Sunday and early today.

One mission struck at suspected enemy positions 12 miles west of Da Nang, near the spot where U.S. marines fought a fierce close-range battle with about 100 North Vietnamese soldiers from dusk Saturday to Sunday morning.

The North Vietnamese broke off contact and withdrew after American artillery and dive bombers pounded their fortified positions. Twenty-two North Vietnamese and eight marines were killed, U.S. headquarters said.

Da Nang, headquarters of the marines in South Vietnam and the country's second largest city, is considered a likely target for the major offensive which the U.S. command expects within the next month or so. But neutral diplomats in Saigon don't believe a Communist offensive is imminent.

U.S. headquarters said a Viet Cong force fired rockets Saturday at the U.S. freighter Southport II as it approached Saigon. U.S. gunboats, helicopter gunships and fighter-bombers attacked the Viet Cong along the banks and killed 20. There were no U.S. casualties and the ship was not damaged.

## Youth Gets Remand For Sentence

A youth who pleaded guilty to four motor vehicle offences and to being a minor in possession of liquor was remanded in central court Saturday for sentencing Tuesday.

James Stewart Dobbyn, 19, of 1950 Argyle, drove his car away from the Colwood RCMP station Friday night leaving 69 feet of skid marks, court was told.

He later abandoned the car containing two female passengers and nine bottles of beer, in a motel parking lot, testimony indicated.

Dobbyn, who was described as belligerent when apprehended, told officers he was driving that way because he was angry at police.

He didn't have his driver's licence with him, and there were several mechanical defects in the car, which he had recently purchased.

Dobbyn was charged with careless driving and being a minor in possession.

He was also charged for driving a vehicle with mechanical defects, failing to file notice of motor-vehicle transfer and failing to produce his driver's licence.

## Details Awaited

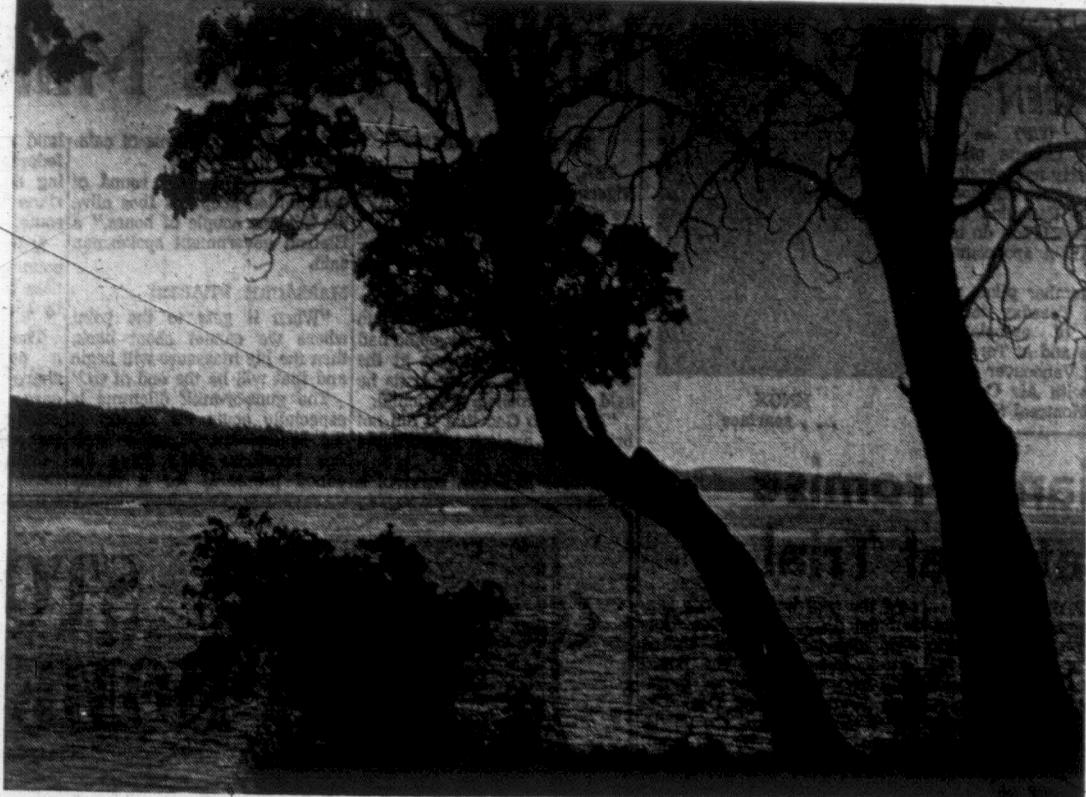

BRITISH COLUMBIANS, AND particularly the 45,000 Indian residents of the province, are waiting with considerable interest to learn more details of Premier Bennett's proposed \$25-million fund to aid the education of the native population. The announced fund is expected to yield an annual revenue of \$1.5 millions for the worthy purpose which Mr. Bennett has undertaken, but it is evident that it will have to be applied to something other than basic education costs, since these are already underwritten by the federal government.

As a result of much good work by Mr. Arthur Laing, the federal former minister of Indian affairs, the federal government has recognized a need as well as a responsibility and this year the budget provides \$59 millions for Indian education. The charges for Indian pupils' attendance at public schools are underwritten; and in addition all the costs of an Indian student attending university, including fees, books and living expenses, are paid.

The latter group, unfortunately,

is not a large one, for few Indian young people make their way through the public school system to the campuses of this country. But the increased interest of Indians in gaining a lower-school and secondary education should in time produce more undergraduates, and there are growing numbers taking advantage of vocational school courses.

Where Mr. Bennett's aid fund will fit into this picture is not clear. We must hope that the offer was not one of those sweeping but unfulfilled gestures which the Premier so enjoys—the fund to aid needy peoples abroad was one such, for it sat unused until very recently as a silent monument to generosity. The money in question, of course, is not Mr. Bennett's, it is the money of the people of British Columbia. There can be no question of their agreement to use the new fund to assist the Indian people of British Columbia whose ancient land we now inhabit. We and they now look for announcement of a specific program.

**Bill Balkin**

## FROM OTTAWA

### Pills, Prices, People and Protection

THE Canadian pharmaceutical manufacturers, in collaboration with friends abroad, are preparing to do for the World Health Organization (WHO) what they have already done for the grateful consumers of this country. Except in Geneva, where it has probably created near panic, this development has been largely overshadowed by international crises and the controversy over the papal encyclical. It might have escaped public attention altogether but for a timely release from Dr. William Wigle, president of the Canadian association, who works untiringly in Ottawa to retain a niche in the just society for pharmaceutical manufacturers.

Dr. Wigle, a much-travelled master of the graceful phrase, has been in Stockholm participating in the formation of the International Federation of Pharmaceutical Manufacturers' Associations. His prescriptions evidently have considerable impact, because he has been named a member of the seven-man council. This is doubtless a tribute not only to Dr. Wigle, but also to the pioneering spirit of the Canadian industry, which has achieved price levels almost unmatched in the world.

#### Another Cartel?

Suspicion abounds nowadays, and there may be a disposition in some quarters to regard the new organization as another international cartel. It is obviously of considerable scope, embracing the associations of Canada, the United States, the Common Market and EFTA. There is no mention in the release of the Japanese, who are presumably going their unco-ordinated way, although it appears from one sentence in the release that they may not have been entirely overlooked by the pharmaceutical funding fathers.

For those base enough to suspect motives, Dr. Wigle's description of the aims and objectives is as soothing as your favorite cough syrup. "The aim of the new federation," he writes, "is to make a wider contribution to the understanding and the solution of worldwide problems, in order to advance the health and welfare of the peoples of the world."

It will be observed that there is not one word about pill prices, patents or profits. When one considers the plight of the Canadian industry, as revealed in the many anguished communiques of Dr. Wigle, one can only marvel at the dispassionate approach of those who journeyed, obviously at some expense, to this summit conference in Stockholm.

The story continues: "It is hoped that in co-operation with the World Health Organization in Geneva, the federation can be of service to mankind in facilitating the provision of high quality,

safe and effective drugs to people everywhere."

This has a more familiar ring. By chance, Dr. Wigle has couched his thought in the very phrases used by members of Parliament in defending the drug industry of underdeveloped Canada. Is there, perhaps, an unspoken hope that WHO will co-operate in the fashion of past Canadian governments, by fostering patent regimes which preserve us from unimaginable dangers at astronomical costs?

#### Those "Ethical Principles"

Another objective of the federation, says Dr. Wigle, is to "promote the development of ethical principles and practices throughout the pharmaceutical industry." It is perhaps pure coincidence but among Ottawa lobbyists the term "unethical practice" usually means price-cutting. The Stockholm conferees evidently were of the opinion that they could not raise ethical standards by their own unassisted effort. "To this end," Dr. Wigle explains, "the federation will strengthen and develop contacts with national and international organizations, both governmental and non-governmental, and will invite pharmaceutical manufacturers' associations in all parts of the world to become members of the federation."

In other words, the hope is that government will involve itself in this ethical business. In the absence of government, human frailty asserts itself. So does price-cutting in pink pills. So do the Japanese.

Readers of Dr. Wigle may be puzzled about one point in the communiqué. It turns out that, while the federation is new, the four organizations have in fact been getting together annually since 1962. These merry reunions have been concerned with the discussion of common

**Western**

## By MAURICE WESTERN

### Problems and the Exchange of Information

"In a co-operative approach to the provision of the best medicaments to mankind as effectively and efficiently as their broad resources can devise."

This is reassuring, but also deeply mysterious. For only last November, Dr. Wigle, in Ponte Vedra, Florida, issued a warning chilling enough to set Canadians off on a coast-to-coast rush for protective prescriptions. He was aroused by observations of the parliamentary committee on drug prices and particularly incensed by the view of Mr. Henry of the Combines branch, that the removal of significant elements of protection should lower the prices of drugs reaching the Canadian market.

Said Dr. Wigle: "I do not believe that the Canadian people are willing to jeopardize the future of the drug industry in Canada and that of its 10,000 employees, for a will-o'-the-wisp profit which would put Canada at the mercy of foreign nations in the event of worldwide epidemics."

If Dr. Wigle was right last year, how could he bring himself to consort in Stockholm with the merciless representatives of foreign manufacturers, who may well be waiting impatiently for the opportunity to do us in?

#### Untrustworthy Foreigners

If he was wrong, as would appear from his description of the pharmaceutical reunions, how could he have volunteered a statement so worded as to sap our confidence in foreigners, their ethics, their pills and their prescriptions?

It is apparent from pharmaceutical literature that much in human behavior is attributable to digestive disturbances. We must therefore reckon with the unhappy possibility that Dr. Wigle dined imprudently, either in Florida or in Stockholm.

## Saving The Junket Image

**Vancouver Sun**

Until the news leaked out about Premier Bennett's forthcoming 19-day Grand Tour of England, the Netherlands and Austria on the taxpayers' cuff, it had been an unrewarding year for B.C. junket-watchers.

Really! Where was the panache in Public Works Minister Chant's jaunt to San Francisco to help a six-man departmental team rubberneck at possible models for the promised civic square skyscraper?

That one was all quantity, not quality. Oh, one could snivel a bit at the expense. After all, the province is pasturing old Sacred Warhorse Newt Steacy down there and he's probably dying to crane his neck a bit to justify his \$15,000 salary and \$12,000 expense account.

But, clearly, Mr. Chant isn't fit to lead the seven-league boots of the provincial Marco Polo's of yesteryear—Ken Kiernan in Greece bearing gift stoles, Robert Bonner footloose among the Cinque Ports, Ralph Loffmark out-running the Orient Express, Dan Campbell inside Scandinavia and Phil Gagliardi riding the jet stream everywhere.

Those were the days when the B.C. taxpayer received a little vicarious romance in return for underwriting all those credit cards. Who can forget Ken Kiernan on the banks of the Danube making color comparisons with the Fraser?

So the disclosure that our premier is making another annual Grand Tour comes almost as a relief. This is in the old style—couriers, retainers, mystery, sight-seeing and the enigmatic premier teasing the curious. It shows that the junket, if nothing else, is eternal. The swallows may be lean and their feathers ragged but when they show up in Capistrano one knows, by George, that there's still an order to things.

It is bad taste to expect an accounting. This confuses and angers our cabinet ministers and, when pressed hard enough, they even threaten to stop travelling at the public expense. It is enough, surely that they are demonstrating the opulence of B.C. to the world. Hey, look, these junkets proclaim, here's a corner of the globe with money to burn.

## No Stones to Heaven

**Toronto Star**

Whatever the student riots in Paris last spring may or may not have accomplished politically, they are going to leave one permanent mark on the city.

The de Gaulle government is quietly paving the streets in the university quarter, replacing the old cobblestones with asphalt.

The students—like generations of French rioters before them—dug up the cobblestones to make barricades, and also found them handy to throw at the police. But there is very little that even the most determined revolutionist can do with asphalt.

## Bitter Lemon

**Montreal La Presse**

A union leader said before the postal strike: "We are going to squeeze every last drop out of the lemon." The strikers could not help but be impressed by such an exemplary determination.

Either the "lemon" was already very dry or its skin showed an unexpected toughness...

## By JOSEPH ALSOP

### FROM WASHINGTON

### Wrapped in the Riddle of the South

ATTER Miami, there are still a few unanswered questions. To be sure, they do not concern the kind of campaign for the presidency that Richard M. Nixon intends to wage. His

rebuttal, admirably delivered, politically well contrived acceptance speech was vintage Nixon—perhaps the best of all the thousands of speeches he has delivered in his long career. But as usual with vintage Nixon,

the words must be read against the background of his acts, such as the selection of Governor Spiro T. Agnew as his vice presidential running mate.

Taken together, the words and acts

quite clearly mean that Nixon will follow the "southern strategy" this year, despite the grave threat to that strategy caused by the candidacy of former Governor George Wallace.

What this boils down to cannot and should not be glossed over. Nixon may not attempt to wrest the Deep South states from Wallace, mainly because this will be so difficult to do. But in states like Texas and Oklahoma, in all the border states, and in the big northern states as well, the Republican nominee will be competing with the Little Alabama governor for support from the people whose racial fears and prejudices have steadily swelled the Wallace percentage in the opinion polls.

#### Fair Bet

Mathematically, this version of the "southern strategy" looks like a fair bet in the present deeply troubled year. In the pools, the Wallace totals plus the Nixon totals constitute a solid majority. Even in the industrial north and east, the mere transfer to Nixon of two thirds of the most recent Wallace totals would put Nixon in the lead.

As a major party nominee, moreover, Nixon ought to be able to outbid Wallace, if he chooses to do so. And he will choose to do so beyond a doubt, albeit in smooth words, with pious phrases, and without the sharp-tongued Wallace-style demagogic that might alarm the middling voters.

So much is clear. The great unanswered question, post-Miami, is whether Nixon always meant to adopt the southern strategy, or came to it at the last moment, because of the hazards of the convention floor. It is an interesting question, because the answer tells you so much about Nixon himself.

The first point to note is that Nixon's long concealment of his southern strategy was quite invaluable to him. If anything of the sort had been expected from the outset, all sorts of indignation would have been aroused; and in many different quarters, obstinate opposition would have been stimulated. Against a Nixon openly and from the outset committed to this strategy, Governor Nelson A. Rockefeller would have had what he always lacked—the wind of strong feel-

ings, of powerful fervor, to swell the sails of his belated candidacy.

The second point to note is how such large numbers of persons, including a very large sector of the American press, were conned into complacent disbelief that Nixon would ever do what he finally did. Partly, this resulted from Nixon's compromising approach to that always worthless document, the party platform.

Mainly, however, this useful disbelief resulted from the impression that Nixon and his entourage managed to convey, concerning his intended choice of running mate. Men whose mere names on the ticket would have ruled out the southern strategy, such as Mayor John Lindsay and even Governor Rockefeller himself, were touted on all sides—and with good reason, for the stories came straight from supposed horse's mouths on the highest Nixonian level.

The blow of Agnew, therefore, was all the more severe when it finally fell. Had it, then, all been a gigantic con-game? Was the carefully stimulated talk about Lindsay, for instance, solely and exclusively stimulated to lull the indignation and to prevent the opposition that might have aided Rockefeller so greatly? Did Nixon in truth coolly and cleverly plan the whole deception in advance?

#### Beneficial Deception

Richard Nixon being Richard Nixon, no one can ever answer those questions with absolute assurance. But two facts are perfectly obvious: and both all too strongly suggest the same answer. On the one hand, Nixon certainly benefited very greatly by this deception, which gave him the best of both worlds at Miami until he was finally nominated.

On the other hand, Nixon's own appraisal of his strengths and weaknesses has always been exceedingly shrewd. From the start, therefore, Nixon certainly faced the fact that he could not hope for any Negro votes. Equally certainly, Nixon also began by facing the fact that no other Republican nominee would have the same unifying effect on the divided Democrats. And once these facts were faced, he had no winning strategy that was open to him—except the southern strategy.

## Forestalling a Doubt

THE NEGATIVE REACTION BY big powers to Britain's proposed treaty banning production of bacteriological weapons points up one of the major incongruities of our times. The suggestion is reportedly viewed with hostility by Russia and has been given a cool reception by the United States. It will be understood that disarmament is seen by those concerned as a balancing procedure which will preserve relative strengths. One country is seldom prepared to weaken its position in relation to a potential adversary.

Yet the whole concept of germ warfare is so repugnant to most people that the British proposal should have been given a more enthusiastic welcome than it received.

This does not remove all the questions of morals or ethics which have been injected into transplant procedures. It should, however, eliminate entirely any suggestion that a prospective transplanting team might be too hasty in its efforts to acquire a desired organ to transplant. Full public confidence must be preserved. The statement on death should leave no room for any doubt about how dead the donor may have been.

THE WORLD MEDICAL ASSEMBLY, meeting in Sydney, has performed a useful service by adopting a code covering organ transplants. It specifies that the death of a donor should be determined by two or more doctors "in no way" concerned with the operation, and stresses the importance of tests with an electroencephalograph unit. Some such standard, universally accepted, is essential if the new surgical technique is to make progress.

**COMMUNIST PARTY** chief Alexander Dubcek of Czechoslovakia was cheered by crowds in Kosice following successful showdown talks with Russians on democratic reform program, but his biggest problems lie ahead in economic sphere. Czechs have lagged behind other Europeans and dissatisfaction with their lot was largely behind support of Dubcek, according to the article below.

## Dubcek Needs Economic Miracle To Keep Czech People With Him

PRAGUE — This is a badly run-down country and you discover that very fast. You find, for example, that it is quicker to descend five flights of stairs to talk to the reception desk than to attempt it by telephone.

A leading Czech television personality does not even have a phone at home through no choice of his own; the gearbox of the almost new Skoda car you hire feels as if it has been composed from an assortment of pasta; and every other pair of women's legs over 40 years old seems to be ropy with varicose veins.

### Slogging Guts Out

Alexander Dubcek's revolution was based from the very beginning on such facts of life. The intellectuals may have incited it because they wanted their priceless freedom of speech, but they would not have got such enormous backing if the utilitarian masses had not felt that for 20 years they had been slogging their guts out, bone weary, forever by the kitchen sink.

If the Russians had not lost their nerve a bit these past few weeks, it is possible that they could have just waited for Dubcek to come unstuck from sheer inability to solve his economic mess fast enough to please enough people.

If the Czechs are still as solidly behind him this time next year, then he will have

By GEOFFREY MOORHOUSE  
The Manchester Guardian

worked more than an economic miracle. No one here who understands the nature and the magnitude of the problem, imagines that more than the beginnings of a solution will have been managed by then.

The facts of economic life and some of their solutions were recognized by the unorthodox experts long ago. By the start of last year they had put their plans before Antonin Novotny and his henchmen. Basically the solutions amounted to an overhaul of the price structure and an enormous decentralization of industry.

The first meant that prices should reflect as far as possible actual production costs and then begin to be influenced by world markets; the second that the government, which meant the party, should abdicate much of its economic power. Both were politically unacceptable. And so, you might almost say, Novotny came a cropper.

The Czechoslovaks have been able to feel from the texture of their lives for a long time that they have been coming off a lot worse than second best to most of their visitors from abroad.

They never knew, most of them, precisely how bad things were until a few weeks ago when academician Ota Sik started to tell them in a

series of television appearances which are being repeated so that everybody gets the message.

He has told them, for example, that to buy a sewing machine a Czechoslovak has to work for 287 hours where a West German works for 88 hours; to buy a can of jam he has to work over one hour compared with less than half an hour; to get a pair of nylons five hours against five minutes.

They have heard that Czechoslovak steel has a life 40 per cent shorter than world norm, that some of its factories are using machines 80 years old; that unsaleable goods have been piling up in certain plants which are still turning them out.

### Housing Record Bad

They now know they live in a land whose housing record is worse than everybody else's in Europe except Yugoslavia, Spain, and Portugal; where there have been 800,000 legal abortions in the past decade and many of them because too many women have to work too hard; where a few years ago out of 12,000 factory managers and their deputies only 3,000 had a university education and another 2,300 had even an elementary education. They now know, in short, exactly what price they have all been paying for the

old party manipulation of everything from the cradle to the grave.

Sik has not only been telling the Czechoslovaks what has been wrong. He has been giving the nation a tutorial in economic philosophy, pointing out what basically has to be altered before things can begin to look better.

He has advocated the gradual abolition of subsidies to inefficient producers; the end or direction in foreign trade until enterprises themselves have an interest in importing and exporting in the most efficient way with the state managing only foreign currency policy and its balance of payments by means of regulators; the establishment of workers' councils which would appoint management but then be unable to interfere with proper managerial responsibility.

He has also given the nation a slogan which has struck most people where it counts most:

"We are," he has said, "wasting our short lives. A citizen should be able, after an eight-hour working day of a five-day working week, at last to devote himself to himself to create material conditions in which he can see in those eight hours a focus in his life where good performances are reflected in his pay."

And that much more than anything the intellectuals have written, is what has brought the nation in this crisis almost to a man behind Dubcek.

### NOVEL U.K. PLAYGROUNDS

## Underneath the Arches . . .

By ALFRED FRIENDLY

LONDON — When you build an elevated highway through a slum, what do you do with the space underneath it? Use it for parking lots, natch.

That, at least, is the instinctive municipal and commercial answer, in Britain as well as North America. One such automatic reflex here, however, was recently scuttled by a congeries of social work organizations which, uniquely, were as tough-minded as they were inventive.

These particular enemies of progress and right-thinking—a group of churches, neighborhood councils and volunteer organizations—hail from Notting Hill, one of London's largest slum areas and the scene of its worst racial disturbances some years ago.

They demanded that some of the space under the city's newest "flyover," to use the

British term, be used for children's playgrounds, and got away with it. Under the sponsorship of the umbrella organization, the Notting Hill Social Council, six huge bays under the great concrete serpent, the extension of Western Avenue cutting through North Kensington, were opened to the children last week.

One bay, supervised by a mothers' organization, is for under-five-year-olds; the next is a volleyball court and rough-and-ready bowling alley; the third and most popular is a junk yard, filled with old packing crates and scaffolding; the fourth a poster painter's atelier, and so on.

If the experiment works—and it was working fine when

Some 60 volunteers, mostly students who pay \$3.60 a week for room, board and the privilege, provide relaxed supervision. The Greater London Municipal Council anchored half a dozen portable toilets at the entrance of the enclosed area.

Some 60 volunteers, mostly

yards long and 20 wide, is ideal—dry in this hideously rainy summer, safe from all traffic more menacing than mini-bikes, and abundantly roomy.

American Machine and Foundry International, whose parent company did much the same enlightened act for play streets in Harlem and Washington last year, donated some play equipment.

Some 60 volunteers, mostly students who pay \$3.60 a week for room, board and the privilege, provide relaxed supervision. The Greater London Municipal Council anchored half a dozen portable toilets at the entrance of the enclosed area.

Balloonists make good start to short trip

## Balloon Trip Ends Quickly

HALIFAX (CP) — Two Toronto actors who tried to cross the Atlantic in a balloon returned here today on a fishing trawler after being saved from the sea.

Mark Winters and Jerry Kostur, tired but unhurt after their abortive attempt, told reporters in neighboring Dartmouth they anticipated trouble shortly following their take off Saturday.

They were forced to ditch at sea about eight miles off Sheet Harbor, N.S., Sunday afternoon when their supply of helium became insufficient to maintain a proper altitude.

They said their balloon dipped to sea level at least 30 times before they decided to release it.

The pair were in a 15-foot sailing craft slung beneath the balloon. After releasing it they waited in the craft until they were rescued by the trawler Karendawn out of Port Bickerston, N.S., late Sunday night.

"We were a little short of helium," Winters, 35, said tersely as reporters on the dock clustered around the pair. "When we left we didn't think we had much chance. . . . But there were a lot of people around."

He said they were unable to achieve the required altitude and kept ejecting ballast in an effort to lighten the load. Finally they were without ballast and the balloon began dipping severely, coming down to sea level and then rising to heights of up to 200 feet.

After ejecting the balloon they drifted in calm seas, unable to radio their position because of a malfunction in their transmitter, until an air-sea rescue aircraft spotted them Sunday evening.

The coast guard cutter William Alexander and an RCMP vessel were dispatched to the scene, but before clearing the harbor here were recalled.

The trawler Karendawn, heading for repairs at the marine slips in Dartmouth, messaged that she was within four miles of the downed balloonists and would pick them up. They were picked up about 11:30 p.m. ADT.

The rescue climaxed an eventful weekend for the two ac-

## Seven in B.C. Share \$3,300 in Drapeau Draw

MONTREAL (CP) — Mayor Jean Drapeau Sunday resumed his most favored role when he distributed \$150,000 in silver ingots to winners of the monthly voluntary tax plan.

But after he had awarded top prize of 1½ tons of silver to Claire Imre of suburban Laval in the third monthly draw, Mayor Drapeau estimated the

recent postal strike had cost the city "maybe \$500,000" in lost contributions.

"All the people who held their contributions over will probably mail them in for the next draw, so we expect to recoup most of the money lost," he said.

The two previous draws brought about \$900,000 profit each to city coffers. The scheme

was devised by Mr. Drapeau to help offset a predicted budgetary deficit of \$28,000,000 in fiscal 1968.

Mrs. Imre, wife of a propane gas company area manager, came to Canada in 1951 with her husband. They had lived in France for a number of years before coming here.

To be assured of the \$100,000 top prize, she had to answer correctly four questions based on the history of Montreal, the answers to which are printed on each \$2 receipt issued by the city to contributors to the voluntary tax scheme.

Out-of-province winners:

\$1,000: Mrs. J. Campbell,

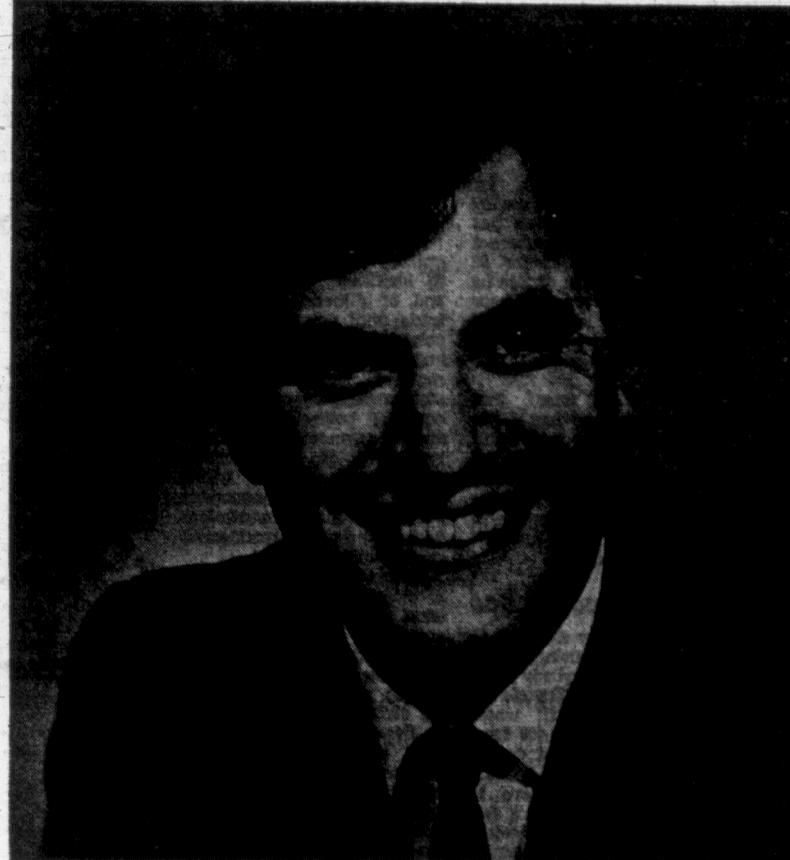

Colfax, Sask.; F. T. Bunce, Kelowna, B.C.; Waldo E. Ellis, Greenfield, Mass.; R. A. King, Castlegar, B.C.

\$500: Mrs. Bernice Hogan, Trail, B.C.; J. N. Flynn, Sarnia, Ont.; Mrs. L. E. Swain, Vancouver; Marcel Letarte, Toronto.

\$100: V. Steininger, Grenfell, W. H. Clancy, Hudson, Mass.

## another Peter Jackson smoker has just won

# \$10,000

Mr. Gerald Zuidwyk, a social worker from Daysland, Alberta, didn't think he'd be able to afford a vacation this year. He certainly didn't reckon on having a tax free \$10,000 to spend!

But Lady Luck stepped in and Mr. Zuidwyk found a cash certificate worth \$10,000 in a pack of Peter Jackson. So now he and his wife are excitedly planning a fabulous holiday in Vancouver.

If Lady Luck seems to have passed you by lately, why not give her a helping hand? Change to Peter Jackson. You might find yourself with more change than you bargained for — \$10,000 of it!

## some of the recent

# \$1,000 winners

Mrs. Isabel M. Johnson,  
Jaffray, B.C.

Mr. Donald E. Harrison,  
1781 Island Ave.,  
Vancouver, B.C.

Mrs. Olive Williams,  
Box 165  
Blubber Bay, B.C.

Make the switch to the big one-P.J. Pick up any package of Peter Jackson in Alberta and British Columbia. It could be one of many that contains a cash certificate worth \$1,000 or \$10,000.\*

\*In order to win, you must qualify under the rules appearing on the certificate.

## the next \$1,000 or \$10,000 winner can be you!

# Big Dealers Lose Little, Win More

By PHILIP GREER

NEW YORK — The clearest conclusion that can be drawn from the New York Stock Exchange's proposed interim commission rates is that research-oriented institutional brokerage firms will bear the major part — if not all — of the reduction.

NYSE president Robert W. Haack has strongly denied that any one group of brokers was singled out. At a press conference, board chairman Gustave L. Levy pointed to himself and said, "You're looking at the fella it will hurt the most and I'm all for it."

But a closer examination of the proposal — which apparently has the pre-arranged approval of the Securities and Exchange Commission — indicates that Levy may not be sacrificing as much as he would like the world to think.

The fact is, he and his firm, Goldman, Sachs and Co., could very well come out of the whole thing making even more money than the considerable profits they rake in under the current commission schedule.

Goldman, Sachs, along with firms such as Bear, Stearns and Co. and Salomon Bros. and Hutzler, are among the largest block-trading firms in Wall Street.

Goldman, Sachs, is also very active in "block positioning," which means the firm will buy stock for its own account if it can't find a buyer immediately. Depending on the state of the market, that activity can entail a considerable degree of risk.

As block traders, these firms stand to lose just as much commission income as other firms which service institutions, but rely more on their research capabilities than their talent for executing orders.

The big difference, however, is not in the commission cuts. The kicker is the NYSE's insistence that commission-splitting between brokers — the now-familiar give-ups — be prohibited in all markets.

Goldman, Sachs, along with the other large trading firms, gives away considerably more in commissions than it receives from other brokers. So, while the firm's gross commission take will be cut by the new rates, it will be able to keep it all, instead of sharing with other brokers.

A look at some figures will illustrate how this works.

Assume that a block-trading firm executes an order for 50,000 shares at \$50 a share would be \$14,160. Floor brokerage charges, which the exchange plans to reduce by a flat 7 per cent, will take away \$1,800, leaving \$12,360. But this time there are no give-ups and the executing firm can keep the whole thing, almost doubling its profit.

This last figure must be adjusted further downward, because firms that now receive give-ups will undoubtedly be given orders instead to pay for their services.

But, in order to cut the trading brokers' income back to where it is under the old system, firms such as Goldman, Sachs, would have to lose almost half their current business — and in Wall Street, everybody has too much faith in Gus Levy to believe that would ever happen.

In their block positioning activities, of course, the big trading firms can make further adjustments for the new commission schedule, such as lowering bids by a fraction of a point to compensate for the cut in charges.

Most institutions, having decided to sell a block of stock, will not quibble about fractions. But, when dealing with large blocks, those fractions mount up quickly.

Large retail firms — Merrill Lynch, Pierce, Fenner and Smith, Inc., Bachrach and Co., Inc., etc. — are almost certain to make more money under the new plan than the old.

The reason for that is simple. The big board's proposal calls for no change in commissions on orders of 1,000 shares or less, and the floor trading fee will be smaller.

## Ford Sales Rack Up Car-Truck Record

OAKVILLE, Ont. (CP) — Ford Motor Co. of Canada Ltd. sold a record 20,710 cars and trucks in July, a 15.3 per cent increase over the previous year.

## Quebec Textbook Firm Sold

MONTREAL (CP) — The sale of Quebec's largest textbook publishing house to Encyclopedie Britannica Publications Ltd., of Toronto has been completed.

Paul Desrochers, managing director of the Centre de Psychologie et de Pedagogie, said in an interview the transfer of the common shares of the Montreal publishing co-operative was completed last week.

The purchase price was not disclosed, but he said the deal involved more than \$2,000,000 in cash. CPP has assets totalling \$4,406,000.

Announcement of the deal July 26 provoked critical reaction from a number of Quebec nationalists including Rene Levesque, leader of the separatist Mouvement Souverainete-Association, who said the provincial government should have intervened to prevent the sale and keep the instruments of Quebec culture in Quebec hands.

## WHAT IS YOUR HEARING SCORE?

### TEST YOURSELF

1. Do you have trouble understanding the speaker at church or meetings?  NO  YES
2. Do you sometimes fail to hear the telephone or doorbell ring?  NO  YES
3. Are you sometimes confused in group conversations?  NO  YES
4. Would you frequently like the TV or radio a little louder?  NO  YES
5. Are you one who hears but does not always understand?  NO  YES

Allow 20 points for each NO answer score. If your total score is less than 60 points, you are eligible to receive a FREE TV-radio listening device that fits right in the ear and greatly improves your enjoyment of TV and radio programs. This service is reserved for the hard-of-hearing only. To receive your FREE hearing device, just clip out your test paper and mail with your name and address to:

## New Mine Restoring Trail of '98

By STUART LAKE

CARCROSS, Y.T. (CP) — Arctic Gold and Silver Mines Ltd., the first mining property to go into production with the help of the federal government's exploration grants program was opened Saturday by Northern Development Minister Chretien.

Under the programs, Canadian companies are given grants of 40 per cent towards their exploration costs. If a producing mine results, the grants become loans.

Arctic is located about 55 miles northwest of Whitehorse and is on the original gold rush trail of the 1890s. It was the first claim staked 60 years ago.

Mr. Chretien, nearing the end of a 12-day northern tour, said the federal government and private enterprise are a partnership in developing northern resources.

### AGREED TO HIRE

But both also had a responsibility to the people of the north to provide jobs.

Mr. Chretien noted that while the mine was owned by Vancouver interests, primary financing for it had come from Switzerland.

Mine President Clinton Snell said the government policy of giving mines a three-year, tax-free period was the most important factor in the development of small mines in remote areas of Canada.

He said the property now is producing more than 200 tons of ore daily and that initial shipments of concentrate now was en route to Sweden for smelting and refining.

### \$ EXCHANGE

VICTORIA — Purchase of U.S. funds in terms of the Canadian dollar was quoted today at \$1.07 1/16 for cheques, \$1.08% for cash, \$1.07 1/2 for letters of credit. Sales were \$1.07 1/2 for Cheques and \$1.07 1/2 for cash.

MONTREAL (CP) — The U.S. dollar in terms of Canadian funds was unchanged at \$1.07 1/2. Pound sterling was up 1/16 at \$2.38 15/16.

NEW YORK (CP) — The Canadian dollar was down 1/84 at \$1.07 11/16 in terms of U.S. funds. Pound sterling was up 1/84 at \$2.39 13/16.

### ALBERTA UPS OIL OUTPUT

CALGARY (CP) — Crude oil production in Alberta averaged an estimated 743,332 barrels a day in the week ended July 29, the Alberta Oil and Gas Conservation Board said in a report Saturday.

Production in the previous week was 709,336 barrels a day. Daily production in July was expected to be 728,189 barrels compared with 689,357 barrels in July, 1967.

# BUSINESS and FINANCE

Editor: G. S. KENT

### Simpsons Ltd. Net

\$876,708 or 10 cents a share on from 7.5 million shares to 12.5 million, to effect wider distribution.

President W. J. R. Paton said no accurate comparison with last year could be made because performance results of the company's eastern pulp and fishing subsidiaries were included for the first time.

Sales were up from \$110,566 million to \$111,957 million, and produced net of \$2,989 million (40 cents) vs. \$3,018 million (41 cents).

The company expects second half sales to exceed the same period in 1967.

Meanwhile, Simpsons-Sears — half of which is owned by Sears, Roebuck and Co. — reports a six-month net of 28 cents per share or \$4,332 million against \$3,884 million, which also produced 28 cents a share on fewer shares outstanding.

Sales for the period were \$228,055 million vs. \$202,258 million.

### Atlantic Net Drops

Net income of Atlantic Sugar Refineries Co. Ltd. for the first six months this year totalled

\$1.07 million, down from \$1.12 million in 1967.

The company will offer five new shares for one old, and raises its authorized capital

# Carnarvons Head For World Series

For the rest of the way it's nothing but the best for Victoria's Carnarvon All-Stars.

The Carnarvon squad became the first baseball team in Victoria's history to advance to a world series when it swept the Western Canada Pony League championship—with a pair of weekend victories over Saskatchewan's Prince Albert Cubs at Delta.

It was a come-from-behind win for the Victoria team, which didn't take things in hand until after a 3-2 loss to Prince

**SPORTS**  
DOUG PEDEN  
Sports Editor

Albert in the first match of the best-of-three series Friday. Saturday and Sunday produced different stories as Carnarvon held the Cubs to a total of six hits over the two games in chalking up a pair of 2-1 victories.

## WALLIS HOMERS

Victoria pitcher Glen Wallis followed a superb performance on the mound Saturday by stepping into the box Sunday and lashing out a two-run homer in the first inning.

Winning pitcher Ray Andre took it from there, holding Saskatchewan scoreless on four hits until the final inning, when Prince Albert sneaked through a run on a Victoria error and Tom Craig replaced Andre on the mound.

Wallis also opened the scoring for Carnarvon Saturday, when he made it home on a double by Derek Fuller in the fourth inning. Another run was added in the fifth when Martin Winstanley tripled, then scored on a bunt by Cubs' pitcher Bob Balicki, who was called for wetting his fingers despite an umpire's warning.

## UNEARNED RUN

Prince Albert's only run Saturday was unearned, as Dennis Young scored on Don Neilson's double after reaching base on an error with two out.

Victoria advances to the Pony League world series at Washington, Pa., which opens Wednesday.

The team received an enthusiastic welcome on its return to Victoria Sunday night, with a welcoming committee greeting them at the club's home ball park.

## Quick Ryun Takes Mile

WALNUT, Calif. (AP) — Jim Ryun, the United States leading miler, raced to victory in his comeback from an attack of mononucleosis in winning the pre-Olympic test Saturday at Mt. San Antonio College in three minutes, 55.9 seconds for the mile.

Ryne couldn't buy a break

On four consecutive holes—23 through 26—he hit putts that could have gone in. Two lipped and rolled out.

Doyle beat Cowan on and near the greens.

## IRON PLAY TOPS

He said his iron play was the best it's ever been" and that he "putted as well as I can putt."

On the second hole, for instance, he camed a 10-footer for a birdie. On three he hung a birdie putt on the lip. On four, he dropped a 27-footer for another birdie. On 17, he sank an eight-foot birdie putt. On 24, he dropped an 18-footer for a birdie.

His short iron game was just as impressive. On five, he blasted from a trap to within 14 inches of the pin. On 14, he sank

## St. Catharines Crew Set American Record

NEW YORK (AP) — The eight-oared crew of the St. Catharines, Ont. Rowing Club, which will represent Canada in the Olympics at Mexico City, won the American national championship in record time Sunday.

Stroke at a powerful 39 beats a minute for most of the 2,000-metre course on Orchard Beach Lagoon, the Canadians pulled steadily away from five other crews and crossed the finish line in six minutes flat, 13 seconds better than the course mark established by the Vesper Boat Club of Philadelphia at the 1964 Olympic trials.

Vesper went on to win a gold medal at the Olympics in Tokyo.

With only bowman Hugh Foley and coxswain Robert Zimonyi remaining from its Olympic championship boat, Vesper finished second Sunday, nearly two lengths behind St. Catharines in 6:05.6. Vesper was the last U.S. crew to win a national eight-oared crown, scoring in 1965. St. Catharines won in 1966 and a New Zealand crew won last year.

St. Catharines' crew was composed of David McDonald,

Clinton Brown, Richard Syms, John McIntyre, Ronald Crooker, Jesse Richardson, James Ross, Norman Campbell, and coxswain John Findlay.

In Saturday's competition, St. Catharines won the lightweight coxed fours in 7:03.5. Kent MacKinnon, Peter Barr, Greg Pinder and Bruce Raham pulled the oars and Brian Campbell was the coxswain.

Tommy Joe Coffey, catching and kicking, led the Tiger-Cats

in those 14 games. Hamilton had only 195 points—an average of about 14 a game. The offence picked up only 250 points, third-best showing in the four-team conference.

So far this year, with essentially the same defensive personnel, Hamilton has allowed 78 points and scored 44. They lost 53-13 to Ottawa Rough Riders in their only other game this season.

For the first 20 minutes against Montreal, the Tiger-Cats looked like the steamroller of previous years. They went ahead 10-1 by the end of the first quarter and were leading 16-1 early in the second.

## ALS COME BACK

Montreal, behind scrambling quarterback Carroll Williams, came back and cut the lead to 16-11 by half time. Going into the final quarter, the Als were ahead 25-22.

Tommy Joe Coffey, catching and kicking, led the Tiger-Cats

in those 14 games. Hamilton had only 195 points—an average of about 14 a game. The offence picked up only 250 points, third-best showing in the four-team conference.

So far this year, with essentially the same defensive personnel, Hamilton has allowed 78 points and scored 44. They lost 53-13 to Ottawa Rough Riders in their only other game this season.

For the first 20 minutes against Montreal, the Tiger-Cats looked like the steamroller of previous years. They went ahead 10-1 by the end of the first quarter and were leading 16-1 early in the second.

## ALS COME BACK

## Unspoiled River Real Pleasure

By ELIZABETH FORBES

Does anyone in Victoria know the location of Pickerel River? It's in Ontario, between the Muskokas and the Algonquins, and it flows into the northern part of Georgian Bay.

Back in the network of waterways that mark the Lake Nipissing area, you'd find its source.

It winds its way through meadows and swamps and over rapids and waterfalls until it emerges into a wide, slow moving stream that resembles a lake as much as a river.

How did I get to the Pickerel? It happened that when we reached Hamilton, the Page family was about to leave on summer vacation. They were heading north to the Pickerel (down north they say up there) as they have done for the past 10 years.

My friend Peg Campbell, with whom I motored east, is grandmother to this family. So, we were invited to go along.

We travelled by way of Barrie to a turn-off point between Parry Sound and Sudbury. From there we took a dirt road through an Indian reservation to a landing on Pickerel River, where we left our ears.

Len Galey, owner of the fishing and hunting camp we were heading for met us with a launch. We were loaded aboard — four adults, four

youthful pages, Jeff the beagle, boxes of food and clothes.

Once we were away from the landing we seemed to be alone on the river. There was a couple of boats in lazy motion. A few summer cabins hidden back in the trees. And great expanses of water, rock and trees with patches of white and yellow water lilies along the shore.

Finally we rounded a high point of land and ran into a quiet bay. At the end was Woodlands Camp. Five green and white cottages, one cabin, the lodge, a long narrow landing, a few boats and a canoe pulled up on the shore.

I had seen pictures of such places in Northern Ontario. I had read of the calm beauty and the peace of the rivers and streams in this part of the province. Neither pictures nor words tell the full story.

So far the Pickerel River, like many in the Georgian Bay area and in the Muskokas and Algonquins, is unspoiled. The water is crystal clear. There is no pollution in the air or on land. Only occasionally do you see anything on the water that goes faster than an outboard.

First morning we were there we walked up to the meadows back of the camp and in an hour picked a bowl of wild strawberries for lunch.

Across the bay and along a gentle slope were low blueberries in abundance.

Under the camp landing two muskrats had a home. Racoons and chipmunks came looking for handouts at our back door. Loons cried night and morning. Nightingales and other wild song birds made music in the air. Fireflies danced at night.

A spring a little further up river gave us drinking water. It gushed from the bank in a continuous flow and escaped into the river through a deep gash it has carved in the golden sand beach. We picnicked at that spring on several occasions.

We explored the river, too, as far as The Horseshoe, where a series of rapids and falls take you across to the French River, running a little further north and parallel with the Pickerel. We also explored the Little French, another stream that joins the two rivers below Woodlands Camp.

Many evenings, as the sun was low, we went fishing. Often we didn't return until the moon was up.

Mostly we caught pickerel, pike or muskellunge (muskies), with some perch and bass.

We had many fish fries. And once while we were there Len and Dorcas Galey made their famous clam chowder and invited everyone in camp to "come and get it."

Three wonderful weeks on the Pickerel! Three weeks I will not forget! Now I'm travelling farther across Canada rested and tanned a chocolate brown.

## Founder Dies; Yuletide Card Service Ends

The mail strike is over and you can mail early for Christmas if you want.

But cross H. A. Arnold off your list.

Mr. Arnold's late wife, Eunice, received hundreds of Christmas cards daily. She collected used cards which she sent overseas to be used by missionaries as filing cards, by teachers as flash cards and by natives as decoration.

With her death on July 26 Mr. Arnold cannot handle the flow of mail and requests people to stop sending the cards.

In the years Mrs. Arnold organized this service she received over nine million cards.

## Magistrate Makes Loan

Magistrate J. A. Byers came up with a short-term loan in traffic court Friday which kept one of the men appearing before him out of jail.

The unusual courtroom twist came about when Johnny Lobello of 825 Burdett asked for time to pay a \$2.50 fine and costs of \$3.50.

No, said the magistrate after confirming that Lobello had been arrested for failing to appear on a summons for overtime parking. He suggested Lobello use the \$10 bail he had put up when arrested.

Problem there was the bail money was locked in the city police safe and the inspector with the combination was out.

Cut came Magistrate Byer's wallet and he handed a \$10 bill to court officer Sgt. Miller Bell.

"Go around to the ticket lady and get that changed. Give him \$6 and get a receipt from her."

At the cashier's wicket, Lobello paid his \$6 in fines, pocketed the \$4 change and turned over the bail receipt. The court officer later collected the bail money and turned the \$10 over to the magistrate.

## Air Pistol Brings Charge

Thomas Breen, 68, was fined \$25 in central court Saturday after police investigated reports of a man with a gun in the Douglas Hotel beer parlor Friday night.

Breen, who lives in the Salvation Army home, was apprehended by police on Douglas Street. He had an unloaded air pistol tucked in his belt.

## STENOTYPE OPERATOR TRAINING

**British Columbia Vocational School—Burnaby**

This is a ten month course commencing September 3rd, 1968, to qualify the student in the operation of the stenotype machine used in general and legal secretarial fields. Typing, legal terminology and proper usage of the English language will be covered.

### PREREQUISITES:

Senior Secondary School graduation, high standard of English grammar with emphasis on usage, vocabulary and spelling. Good health. Personal interview required.

### ADMISSION:

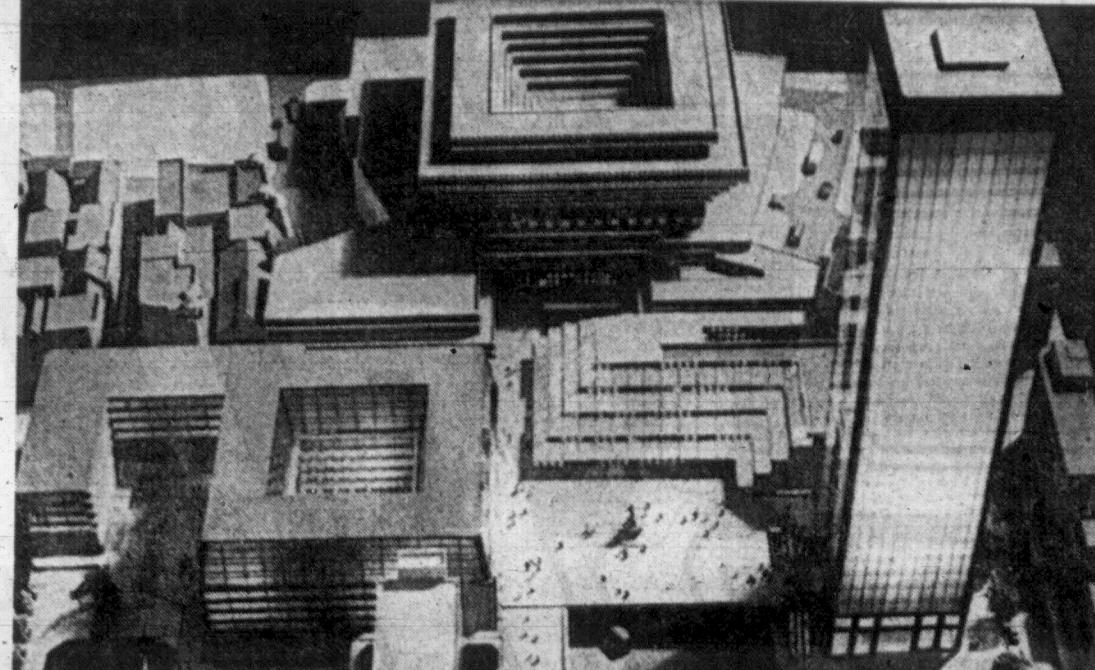

Course commences September 3rd, 1968.

### FEES:

\$15.00 per month. \$1.00 registration.

### Apply immediately to:

The Principal,  
B.C. Vocational School—Burnaby  
3550 Willingdon Avenue,  
BURNABY 2, B.C.  
Phone: 434-1311.

MODEL shows how architect Frank West wants to rebuild London's famed Piccadilly Circus. The cluttered Victorian hub of the West End would be

turned into a futuristic daze of pyramids, cubes and pencil tower, a far cry from the circle now world famous. (CP Wirephoto)

## B.C. Budget for Relief Now in Use

Premier Bennett Friday announced he has released \$35,000 this year of the \$50,000 World Relief Fund he established in his 1968 budget and never used.

Mr. Bennett said the B.C. World Relief Committee, whose members he did not identify, had "met a number of commitments which constitute its planned activities for 1968."

None of the relief projects he listed included Biafra which is facing massive famine now.

Mr. Bennett's press release said that the fund provided 11 tons of processed apples, 1,000 pounds of egg powder and 4,000 pounds of powdered milk in

February for the victims of an earthquake in Sicily.

This donation, announced in the legislature after a request by backbench MLA Herb Capozzi, drew fire from critics who said it had political overtones.

(It was the first use of the fund although numerous large-scale human tragedies had occurred during the eight years since the fund was established in an election year, opposition MLAs said.)

Other donations so far this year listed by Mr. Bennett's press release were:

Five tons of dried eggs sent to Saigon, 15 tons of powdered milk to Lebanon, another 15 tons to India and 18 tons to Korea.

### ALSO AN ATHLETE

Not only was the Roman Emperor Nero a fiddler, he was also an athlete. He won every event he entered in the Olympic Games of 66 AD.

## Suspended Priest Marries Divorcee

IDYLLWILD, Calif. (UPI) — William Dubay, a 33-year-old suspended Roman Catholic priest, Saturday married a divorced mother of four.

The wedding of Dubay and Mrs. Mary Ellen Wall, 29, an Episcopalian, took place at an art school in this mountain community.

The Rev. D. D. Harvey, a Presbyterian minister, solemnized the marriage after Rabbi William Kramer stepped out of the picture.

"I withdrew from officiating when the private nature of the ceremony became public," Rabbi Kramer, a long-time friend of Dubay, said.

Dubay was suspended by James Francis Cardinal McIntyre, the Archbishop of Los Angeles, from his duties as a priest in February, 1968, after he published a book, "The Human Church." The book was critical of the Roman Catholic church.

Dubay first came into prominence in June, 1964, when he publicly asked Pope Paul VI to remove Cardinal McIntyre, accusing the archbishop of lacking sympathy with racial causes.

He later issued a formal apology. He was transferred from his post as an administrator in a predominantly Negro parish in Compton, Calif.

Dubay, from Long Beach, Calif., made unsuccessful efforts to organize the 58,000 priests in the U.S. into a union after his suspension.

Dubay told an interviewer in 1967 that "priests have a natural right to marry."

His wife is the daughter of Alfred R. Rochester, a Seattle, Wash., civic leader and a former city councilman. Her parents were present at the ceremony.

### Flood Toll 140?

NEW DELHI (Reuters) — Floodwaters are receding in the western Indian states of Gujarat and Maharashtra, where the death toll was placed at 140 Friday by unofficial sources. Some 1,000,000 people were affected by the rising water, many of them taking refuge on rooftops.

The Bank of Nova Scotia introduces the Cheque Guarantee Card. What's it good for?

Paying by cheque, your own personal cheque, even in places where you're a complete stranger. Cashing cheques without question, delay or embarrassment.

What's so different about this card?

1. It carries your photograph. In living colour. This is proof positive that you are who you say you are. 2. It is proof positive that The Bank of Nova Scotia guarantees payment of your cheques. Anytime. Anywhere.

It's the photograph that does it. Your Scotiabank Cheque Guarantee Card introduces you with instant face-to-face identification. So there's absolutely no risk to the person who's accepting your cheque.

Another advantage. If you should happen to write a cheque

for more than you have in your account, there's an automatic line of credit built right in.

What does the card cost you?

Two dollars. And that's it. There's no cost at all to the person who's accepting your cheque.

Come into The Bank of Nova Scotia. We'll photograph you with our special colour camera.

When you get your Cheque Guarantee Card, carry it at all times. Present it whenever you write a cheque. In a store. In a restaurant. Anywhere.

No delay, no embarrassment, no questions asked.

The back of the card tells how the guarantee works.

### CHEQUE GUARANTEE CONDITIONS

THE BANK OF NOVA SCOTIA GUARANTEES PAYMENT OF CHEQUES DRAWN ON IT BY ITS CUSTOMER WHOSE SIGNATURE AND PHOTOGRAPH APPEAR ON THE FRONT OF THIS CARD ON THE FOLLOWING CONDITIONS:

1. CHEQUE DOES NOT EXCEED \$100.

2. CHEQUE IS PRINTED WITH CUSTOMER AND BRANCH NAMES WHICH APPEAR HEREON.

3. CHEQUE IS SIGNED IN PRESENCE OF PAYEE (PERSON TO WHOM PAYABLE) BY CUSTOMER WHOSE PHOTOGRAPH AND SIGNATURE APPEAR HEREON.

4. PAYEE WRITES ON BACK OF CHEQUE IDENTIFPROOF NUMBER WHICH APPEARS HEREON.

5. CHEQUE IS ISSUED BEFORE THE EXPIRY DATE SHOWN HEREON AND IS DEPOSITED PROMPTLY BY PAYEE.

### CONDITIONS VISANT LES CHÉQUES GARANTIS

LA BANQUE DE NOUVELLE-ÉCOSSE GARANTIT LE PAYER DES CHÉQUES TIRES SUR ELLE PAR SON CLIENT DONT LA SIGNATURE ET LA PHOTOGRAPHIE APPAISENT AU RECTO DE CETTE CARTE, AUX CONDITIONS SUIVANTES:

5. LE CHÉQUE EST ÉMIS AVANT LA DATE D'ÉCHÉANCE INDICÉE AU RECTO ET DÉPOSÉ SANS DÉLAI PAR LE BÉNÉFICIAIRE.

## Scotiabank guarantees your cheques. Anywhere.

**CITRITS BLESSED****Pope Defends,  
Priests Defy  
Pill Decree**

CASTEL GANDOLFO (AP) — Pope Paul defended his ban on artificial birth control again Sunday and asked God's blessing to convert those who oppose it.

Addressing the crowd assembled at his summer residence for his Sunday blessing, the Pope said July 29 encyclical has drawn varying reactions throughout the world.

"And may all those who oppose it be blessed, so that their conscience may be illuminated and guided by moral, true and superior doctrinal rectitude," he added.

It was the third time since his birth control encyclical was issued that the pontiff spoke publicly in its defense. This lent support to a growing impression in Vatican circles that he will continue to resist all pressures to retreat from his ruling against Roman Catholics using contraceptive devices.

The encyclical continued to spawn controversy around the world.

Bernard Cardinal Alfrink of The Netherlands, a leading Roman Catholic liberal, said in an interview that the Pope could be criticized for his stand, but there must be no schism in the church.

**MATTER OF CONSCIENCE**  
He told Milan's *Corriere della Sera* that despite the encyclical, judgment of right and wrong in birth control rests with the individual conscience.

"But at the same time," he added, "remember that in the formation of conscience one must recognize the authoritative place of the word of papal teaching even if, as in this case, the teaching is not infallible."

In Poland, Stefan Cardinal Wyszyński preached Sunday against birth control by artificial means as Communist authorities announced they would start producing contraceptive pills later this year.

Polish women had used pills imported from Western countries until recently, when health authorities imported 500,000 pills from East Germany.

In Sydney, Australia, a meeting of Roman Catholics at Sydney University Hall voted 196 to 117 in favor of a resolution asserting: "We cannot accept the Pope's statement on birth control." The resolution declared that birth control is a matter of individual conscience.

In Melbourne, Australia, Rev. Nicholas Corty, 37, a professor of theology at the Passionate Orders of Holy Cross Seminary, was suspended for saying in two newspaper articles that he would not accept the Pope's birth control doctrine. The archbishop of Melbourne relieved him of priestly duties until he retracts his statements.

Another Melbourne priest, Rev. Peter Phelan, went on television and said he, too, could not accept the Pope's birth control ban. He said he expects reaction from the archbishop.

**Injuries  
Mystify  
Police**

Police are still unable to explain injuries received by a 19-year-old Saanich youth found lying beside the E & N Railway track north of Goldstream Park Friday night.

St. Joseph's Hospital reports Edward Bath, 351 Kerr, is in good condition with a scalp laceration and multiple injuries.

Campers at Goldstream responding to cries for help found the boy half a mile from the campsite, injured and only partly coherent. At that time they felt he may have been hit by or fallen from a train.

However Colwood RCMP said today they are almost certain the youth's injuries were not caused by the train. They said Bath had not yet been able to explain how he came to be wounded.

Police said the boy was found shortly after he left his job Friday at Fairways Food Market at the intersection of Tillicum and Gorge.

The investigation is still continuing.

**Leprosy May  
Get Vaccine**

TOKYO (Reuters) — A Japanese doctor said last week he has successfully cultured leprosy germs, a major step in the possible development of a leprosy vaccine.

Dr. Toyo Murohashi, head of the tuberculosis department of Japan's National Institute of Health in Tokyo, said he based his experiments on the observation that leprosy bacilli thrived best with little oxygen—such as in fingers and toes, where circulation is restricted.

**15 Priests Arrested**

SAN SEBASTIAN, Spain (AP) — More than 100 persons, including 15 priests, have been arrested in a search for the killer of a police chief, Meliton Manzanas Gonzales, shot Aug. 2. He was a foe of the Basque separatist organization ETA which wants to make a separate country of three North Spanish provinces.

WALTERS  
fiery skipper**Bluenoser Drops Anchor**

LUNENBURG, N.S. (CP) — Capt. Angus Walters, renowned skipper of the schooner Bluenose, died in hospital here early today. He was 87.

Capt. Walters, who sailed the sleek Lunenburg fishing schooner to international racing championships during the 1920s and '30s, entered hospital in May with a kidney ailment.

Until 1967, Capt. Walters was active in a dairy business he operated here after retiring from the sea. He sold the dairy last February.

A native of Lunenburg, the fiery skipper sailed from here as a fisherman until 1921.

When the first international fishermen's series was raced in 1920 it was won by the Gloucester, Mass., vessel Esprante over the Lunenburg schooner Delawana. This led to the building of the Bluenose combining speed with the qualities required in a salt banker.

**'SHE'S A WINNER'**

"I knew from the beginning she was a winner," said Capt. Angus. "I just figured she was a little faster than their best."

**FLOCK TO LAOS**

Laos is home for the largest hippie colony in Asia.

He raced the Bluenose to her first victory in 1921 and won the best-of-three series against the New England entry in two straight.

In the 1930s Capt. Walters and the Bluenose brought Canadians their greatest triumphs in a series of races against the schooner Gertrude L. Thebaud of Gloucester.

International racing by commercial fishing schooners ended in 1938 when the Bluenose won three races to Thebaud's two in a series off Gloucester.

The Bluenose, sold for freight in 1942, was wrecked on a reef in Haiti in 1946.

**FLOODS RAVAGE  
INDIAN STATE;  
1,000 KILLED**

BOMBAY (AP) — More than 1,000 people are believed to have died in floods that have ravaged India's Gujarat state.

Damage caused by four days of torrential rains was being assessed in this capital city today where hundreds of organizations are working round the clock to provide food and help to victims totalling more than 1,000,000.

One report from Surat, one of the "worst affected" towns, said a woman gave birth to a child in a tree above the flood waters.

Doubling the frequency of conventions, he said, "would

VICTORIA-DAILY TIMES, MON., AUG. 12, 1968-15

**McCarthy Seeking  
Conventions Oftener**

LOS ANGELES (UPI) — Sen. Eugene J. McCarthy believes Democrats could better deal with national issues and public policies by holding a national political convention every other year.

"The alternative is to let the poll-takers influence legislation or those who can afford to send the most expensive lobbies to Washington," said McCarthy.

One report from Surat, one of the "worst affected" towns, said a woman gave birth to a child in a tree above the flood waters.

Doubling the frequency of conventions, he said, "would

provide a new opportunity for the expression of the popular will" and would enable delegates to deal with "the national issues and public policy rather than simply the selection of candidates."

**Former Slave Dies**

COLUMBUS, Miss. (AP) — Lucinda Lane, a 107-year-old former slave, died Saturday. She was born on a plantation and after emancipation went to school and became a teacher.

**The new Mercedes-Benz 280S:  
so over-engineered  
you'll never  
fear a panic stop again.**

The new Mercedes-Benz 280S has a disc brake at every wheel. So do all 180-mpg Grand Prix road racing machines.

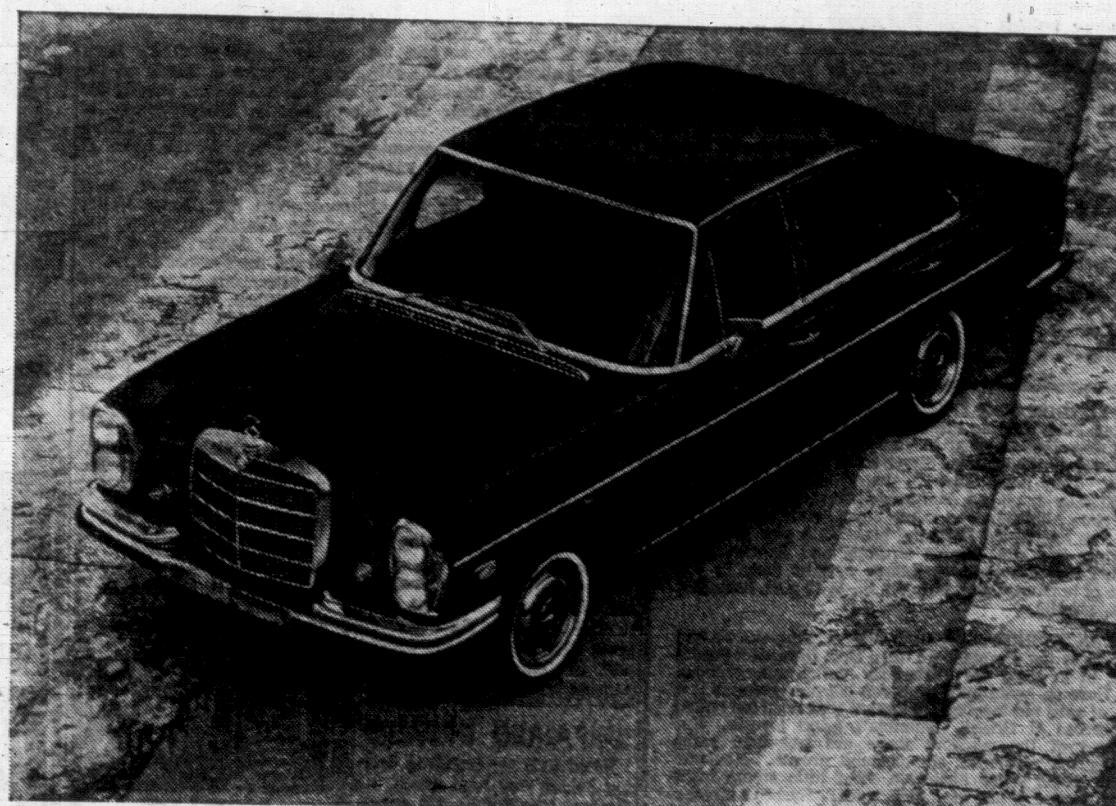

heat. And this heat must be dissipated by your brakes.

**Disc brakes are standard equipment**

The disc brakes of the Mercedes-Benz 280S have 421.1 square inches of effective braking area. If the 280S had drum brakes of the same diameter, this area would be cut considerably. There would be less area to develop braking horsepower, less area to dissipate heat. These brakes would be more prone to fading, swerving, and juddering. Drum brakes lack the feeling of authority you get with disc brakes.

That's why Mercedes-Benz engineers insisted on disc brakes for the new 280S. And not just on the front wheels, or as an extra-cost option—but on all 4 wheels as standard equipment.

The tremendous margin in braking performance you get with 4-wheel disc brakes is just one example of what "over-engineering" means to the owner of a Mercedes-Benz 280S. Here are some more:

The impeccable Mercedes-Benz 280S—with disc brakes on all 4 wheels.

tles by eliminating the body bolts. Instead: 10,000 individual body welds. Result: a structure of immense strength and rigidity. After 50,000 miles or so, you may begin to wonder if your 280S will ever rattle.

**Pewter-filled, hand-polished**

After welding, body seams are ground down and checked with a soft glove. Any burrs are filled with pewter and polished smooth by hand.

The body is then dunked in a 52-ton primer bath until 24 pounds of a special anti-corrosion formula have seeped into every cranny. This primer coat is baked on. The next is sprayed on. Between the last two coats, the body is hand-sanded. The final coat of enamel is hand-sprayed. There isn't any "orange peel" or other minor blemishes. It's as nearly perfect as the present "state of the art" permits.

**WAVING TO CROWD,** heart transplant patient Gaeten Paris Sunday visited Man and His World exhibit, travelling in an air-conditioned car.

His wife Claire is at left. Paris and surgeon Dr. Pierre Grondin won ovations. (CP)

## Transplant Patient, Surgeon Cheered During Montreal Outing

MONTREAL (CP) — Thousands of visitors gathered at Place des Nations Sunday to cheer Gaeten Paris, Canada's second heart transplant patient, when he visited the Man and His World site.

But the loudest ovation from the crowd came for Dr. Pierre Grondin, the surgeon who performed the operation.

The crowd of about 7,000 jammed into the Place des Nations amphitheatre about a half-hour before the 49-year-old electrical designer was to make his appearance.

Another cheer and applause greeted Mayor Jean Drapeau as he made a brief address but when the mayor introduced Dr. Grondin the surgeon received a tumultuous standing ovation.

**THANKS VISITORS**  
Apparently overwhelmed by the reception, Dr. Grondin proceeded after a moment's hesitation to thank the visitors for their support and to express his joy and gratitude about the successful recovery of Mr. Paris.

Mr. Paris received his new heart June 28 from Yvon Bastien, a 23-year-old accident victim.

On Sunday, a little over six weeks following surgery, Mr. Paris was being conducted around the fair site in an air-conditioned limousine.

Mr. Paris, grey-haired and thin, looked pale as he approached a microphone in Place des Nations to extend his good wishes to all the other surviving heart transplant patients around the world.

The suburban Laval resident is among 11 survivors of the 30 operations performed.

### BENDS TELEGRAMS

Mr. Paris handed over nine telegrams which were to be sent to heart transplant patients around the world.

The telegrams read:

"On this memorable day, marking my first public appearance since my heart transplant operation, I extend to you my best wishes for your good health from Man and His World, site of universal brotherhood."

The telegrams went to dentist Philip Blaiberg, Capetown; Everett Blair Thomas, George DeBord, Louis Sierro, Fred Everman, Henry Gurgens, and Beth Brunk, all of Houston, Tex.; Maria Elena Penaloza, Valparaiso, Chile, and Pere P. Boulogne, Paris, France.

Man and His World officials were not available to explain why a telegram was not included for Nubuo Miyazaki, an 18-year-old Japanese who underwent Japan's first heart transplant last Thursday.

Although this was Mr. Paris'

DR. PIERRE GRONDIN . . . standing ovation

## Air Show Draws 346,000 In 3 Days at Abbotsford

ABBOTSFORD (CP) — Officials of the Abbotsford Air Show in this Fraser Valley community said Sunday the three-day event has become the biggest air show in North America, "and possibly the world" with a total attendance of more than 346,000.

A spokesman said 184,000 people attended Sunday, 130,200 on Saturday and 31,800 Friday. About 2,300 aircraft including 1,600 from the U.S. participated in the program.

A spokesman estimated there was more than \$200,000,000 worth of private, commercial and military aircraft on exhibi-

tion, ranging from a Second World War Spitfire to an ultra-modern British Vulcan jet bomber.

Events included aerobatics, skydiving, a race between two vintage planes, a wing walking act and a reunion of 200 former Spitfire pilots.

The show was sponsored by the Abbotsford Flying Club.

The spokesman said this year's attendance was 30,000 over last year's Centennial edition of the air show.

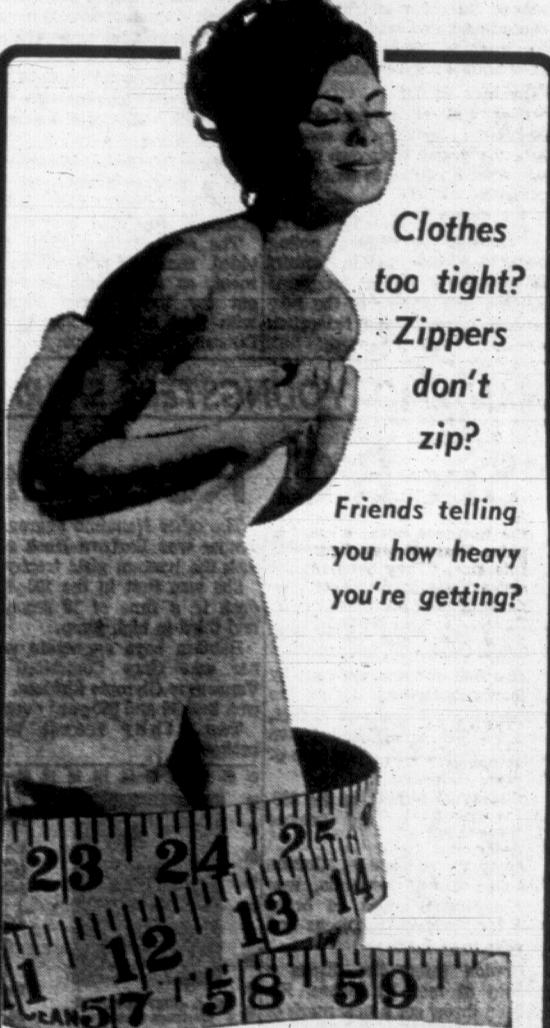

"This show has become the biggest in North America, and possibly the biggest in the world, in seven years," said the spokesman. "And we couldn't be happier with the results."

## BUGGED PAROLEES MAY GET MONITORED HELP

BOSTON (AP) — The head of the New England citizens crime commission has suggested attaching a radio to a parolee to monitor his movements as one possible way of preventing his return to prison.

"Maybe, rather than send someone to an institution, how about wiring him for a period of six months and when he feels depressed, when he feel like he needs help, talk to him, meet with him, pick up his spirits," John Buckley suggested Sunday.

**WAR CANOE RIDE** is lined up by three youngsters during Chief Thunderbird Memorial Days celebrations at Brentwood Bay over the weekend.

They are from left, Michael Bloomfield, 13, Roy Andrew, 8, and Priscilla Joe, 10. The event was sponsored by Saanich peninsula bands.

### Indians Return To Work

Striking South Vancouver Island Tribal Federation band administrators have decided to return to work and seek support in their fight against the new federal grants-to-bands formula from other provincial federations.

About 13 band administrators have been striking to protest the new formula which will distribute federal money on a per capita basis and leave the bands to operate their own local government and welfare programs.

The federation particularly objected to handling the welfare scheme, saying their own people were not qualified to assess the situation.

At a recent meeting with D. A. Webster of Ottawa, acting chief of the Indian affairs department's social programs section and author of the new grants formula, the federation decided to return to work.

### NANAIMO YOUNGSTERS SPARKLE

## Six B.C. Records Broken

DUNCAN — Six British Columbia records were broken Saturday as young Nanaimo athletes took three out of four aggregate trophies at the Cowichan Valley Athletic Club invitational track and field meet.

Two B.C. records were set by Joanne Calverley, 11. In the shot put, her throw was 30 feet, seven inches. She broke her own discus record with a distance of 74 feet, 11 inches.

Joanne came first in the 880-yard race in the peewee division.

Another peewee, Gordon Vaughn, 11, of Nanaimo, won his aggregate when he broke two B.C. records in Discus and javelin.

Gordon threw the discus a record 82 feet, 11 inches. His javelin throw set a new mark of 79 feet, two inches. He also placed first in the shot put with a throw of 27 feet, 6½ inches.

## 28-Pounder Tops For Thunderbird

More than 3,000 people jammed the Tsartlip Indian Reserve near Brentwood over the weekend for Chief Thunderbird Memorial Days celebration.

Honoring the late Baptiste Paul of the reserve, who earned fame as wrestler Chief Thunderbird before his death in 1966, festivities included a barbecue, canoe rides, Indian dancing, a fastball tournament, lucky draws, and a salmon derby.

Winner of the two-day derby was Alf Perri of 524 Ellice, Victoria, who took the \$25 first prize with a 28-pound one-ounce beauty.

George McGee of Brentwood won a grocery hamper in the lucky draw, and Indian sweaters were also awarded.

The fastball tournament provided some of the entertainment, as six teams battled it out for the Tsartlip Trophy, with final honors going to the Duncan Tipi Creepers. Cowichan Spoilers were the losers. Proceeds from the annual two-day affair will go to a recreation centre for the Tsartlip.

### DEEPSHIPS IN PORT

### POLLUTION FIGHTERS REJOICE

## B.C. Politicians Join 'Alarmists'

Provincial politicians who three years ago were calling the B.C. Wildlife Federation's anti-pollution stand "alarmist" are now as concerned as the federation, executive director Howard Paish said today.

"We're just delighted at the direction things have taken," he said in an interview at the federation's Vancouver headquarters.

"We were being ridiculed" by Resources Minister Ray Wiliston and Premier Bennett. "Now they are saying the same things" the federation has been saying since its public education program began more than three years ago.

Mr. Paish said the federation concentrates some 25 per cent of its efforts toward anti-pollution, adding that it is probably the group most responsible for increasing public awareness.

"I honestly believe that politicians were just not aware of the problem" until recently, he said.

They believed B.C. had a superabundance of fresh water and you could go on indefinitely discharging industrial waste and community effluent into it.

But increasing population pressure and rapid deterioration of both water and air conditions have combined to make them "see the light."

"You can't ignore the facts forever."

### REALLY CONCERNED

Mr. Paish said Health Minister Ralph Loffmark was one minister who is "acting by his conscience. I think he is sincerely and dedicatedly concerned about the problem."

### EGG PRICES

	Producer	Wholesale
Grade A large	44	46
Grade A medium	37	39
Grade A small	30	32
Grade B	29	32

Carton prices two cents more.

The health minister realized "this is something you can't hedge and waffle on."

He "realizes it's a rather insidious thing and before you realize it you have a major problem on your hands."

Mr. Paish refused to accept the argument that pollution is part of the price of economic and social progress.

"It's not really progress if you are destroying your environment."

At Nanaimo, federation director Ted Barsby said "environmental quality" is an urgent objective.

### ALL POLLUTION

"The attack on pollution must become an individual concern. Garbage, litter, empty cans, bottles and paper—this is all a form of pollution."

"There's something wrong with us if we put up with it. People say this is progress, but surely we can have progress without pollution."

"Even municipal discharge of effluent has reached the danger point, said eventually all industry must be forced to sign. Look what's happened to Victoria's beaches."

### HOMEOWNER'S LOAN by PHONE!

#### BORROW \$1,550 TO \$10,000 OR MORE

Consolidate your bills into one low monthly payment in half. Discover for yourself exactly what it is to get an immediate cash loan on your property's value, and determine your house is worth more today than when you bought it. And because you're a homeowner, terms are excellent.

Pay off all your old bills, pay cash for new things and still cut your monthly payments in half.

## This is Mary Orr SHE'S A LEGAL SECRETARY

She says: "I can read this highly technical legal text in 1 hour!" She can also read an average novel in 30 minutes! Mary's newly acquired skill has enabled her to read, for business or pleasure, in a fraction of the time which she formerly needed. Her starting speed was 277 words per minute, an average rate. On graduation, Mary could read at a medial rate of 2185 words per minute! She learned this amazing reading method at the Evelyn Wood Reading Dynamics Institute.

### WHO HAS TAKEN THIS COURSE?

Almost half a million people in the United States and Canada now use reading skills learned at Evelyn Wood Reading Dynamics Institutes. They are from all walks of life, such as members of the late President Kennedy's staff, Canadian M.P.'s, U.S. Senators, housewives, doctors, businessmen, students . . . all people who like to read (or have to read) but find their time in short supply.

### TIME MAGAZINE SAYS:

Time Magazine, in referring to Reading Dynamics' impact on legislators in the U.S., said, "Washington has seen nothing like it since the days when Teddy Roosevelt read three books a day and ran the country at the same time."

### READ THESE STUDENT COMMENTS!

Jim Wyllie, Student—Excellent course, now have the ability to read far more books, great aid in study reading, much easier to understand technical material.

Ian D. Parker, Teacher—Recommend the course highly. "I'm reading 10 times faster, this method has allowed me to read great quantities of material with good comprehension."

Margaret McKee, Teacher—Most definitely recommend the course to those wanting to read from three to five times faster with good comprehension.

Keith Hamilton, Law Student—Great course. Reading eight times faster. Great study reading skills taught.

R. Clarkson, Technician—Reading skill learned, showed up in my school exams. Recommend the course to all students.

Joanna Curtis, Librarian—Great instruction, my reading rate has increased 10 fold and my comprehension 20%.

### TATTOOED PRISONERS ESCAPE

Two men who escaped from William Head minimum security prison over the weekend were still at large at press time.

Four others have walked out of the prison within the last three weeks. Three have been recaptured.

Police say Nelson Hoare, 25, and Alfred William Gensick, 28, apparently walked out between 8 p.m. and 10 p.m. Saturday. Neither is considered dangerous.

Joseph Kenneth Pitt, 40, who escaped Aug. 5 is still at large. Gensick is described as five feet 10 inches, 165 pounds, hazel eyes, brown hair and heavily tattooed.

Hoare is five feet 11 inches, blue eyes, blonde hair, fair complexion, wears glasses and is also tattooed.

Both were serving sentences started early in 1967 for breaking and entering and were scheduled for release next year.

Two of the men who escaped July 26 were sentenced to an additional year and the third received nine months for the escape.

### 20 to Attend Special Camp At Shawnigan

A camp with an international flavor will be held at George Pringle Camp, Shawnigan Lake, starting Saturday.

Twenty 11-year-old children will attend from many parts of Vancouver Island.

The camp has been organized by the Island branch, Children's International Summer Villages, which normally arranges visits by Island children to countries abroad.

In 1966 four Island children were sent to an international summer village in Norway, where they stayed with children from the United States and various European countries.

In 1967 children from many countries will be guests at an international summer village at Shawnigan Lake where Vancouver Island children will be their hosts.

"This will call for careful planning and the wholehearted support of our members," says Anna F. Wootton, branch president.

"With this in mind, we are not sending a delegation abroad this year. But we hope the camp at George Pringle will promote our international objectives."

Donations can be sent to the Treasurer, Children's International Summer Villages, Vancouver Island, Box 882, Victoria Post Office.

A Times five-part series last week studied the problems of Greater Victoria's growth, the rapid and continuing urban development which has come about as a result of explosive population increase over the past decade.

One of the primary factors which will affect the pace and quality of development here is employment, and staff writer Bruce Yemen examines this subject in two articles starting today.

By BRUCE YEMEN

Any resemblance between Greater Victoria and an anxious job-hunter is understandable.

It needs about 26,000 new jobs in the next 13 years.

Regional authorities aren't exactly sure where the jobs will come from but most are hopeful they will be found.

Like most job-hunters, the area prefers security, good wages and fringe benefits.

But it's likely Greater Victoria won't be able to be too choosy in the kinds of jobs it accepts.

The regional population projection for 1981 is about 238,000, an increase of 65,000 over today's 173,000.

The usual ratio of 350 jobs for every 1,000 population can be lowered a bit for this area with its unusually high number of retired persons.

But it still makes necessary

### Lack of Statistics Hamper Forecasters

The choice then, stated oversimplly, is between finding the needed jobs and being saddled with high unemployment, restricted community services through loss of tax revenue and a host of associated ills.

So where will the jobs come from?

There are no precise answers.

Besides the usual future variables and unknowns that haunt planners, there is a serious lack of accurate year-by-year statistics to chart employment patterns.

The only way to predict the future is to study the past, and the best employment picture is provided by the national census conducted every 10 years.

### Defence Establishment Steadily Reduced

But the impact of that setback is small in comparison with that of the gradual decrease in the federal defence establishment here from 9,500 persons in 1961 to 6,900 in 1968.

Using the 1.5 multiplier, a total of 3,900 lost jobs in service and trade must be added to the 2,600 "basic" jobs lost for a total loss of 6,500.

The threat of further defense cutbacks and the inevitable rumors of the loss of forest product plants here means the figure of 20,000 new jobs by 1981 should be regarded as a minimum. It could be much higher than that.

All across Canada the employment sector known as "community, business and personal services" has been growing most rapidly and the

same has been true in Victoria.

This category, including educational, recreational and health and welfare services as well as a wide range of business and personal services, is expected to provide about half of the 20,000 jobs needed by 1981 in Greater Victoria.

Rising population and growth in income are causes of the "service explosion" as more people expect—and are willing to pay for—more services ranging from better medical care to better automobile care.

But these are mainly "secondary" jobs, dependent on other jobs being found in the basic sector.

Where will these "bread and butter" jobs be found? Tuesday's article looks at some prospects.

## Official Dismissed in Dispute About Campaign Fund Policies

A dispute over administrative policy has led to the dismissal of Rody Ryan as executive secretary of the Vancouver Island office, Rehabilitation Foundation of B.C.

The foundation is a provincial organization which works jointly with the B.C. Society for Crippled Children in raising funds and operating programs for the handicapped.

Mr. Ryan, who could not be reached for comment, had held his post in the local office for four years when he was fired Thursday by executive director Norman Baker of Vancouver.

The new executive secretary of the Victoria office is Ray St. Dennis, 38, of Lake Cowichan, a foundation director for the past three years.

**FUND DISPUTE**

The dispute which led to the changeover appears to centre around the distribution of campaign funds. These come mainly from the Mothers' March campaign and Foundation policy is to use money on the basis of need, not by region.

## Postal Workers on the Run For 'Christmas' in August

A heavy rush of incoming mail to Victoria from other parts of the country is "a little reminiscent of Christmas," a post office spokesman said this morning.

Information officer Ken Stofer said previous estimates that it would take a week for this to return to normal have been revised to perhaps three weeks.

### \$500 in Fines After Hitting Parked Vehicle

A man who hit a parked car on Empress Street overnight causing \$400 damage was fined \$50 and had his license suspended in central court for impaired driving.

Raymond E. Caswell, 47, of 1208 Bay, was also fined \$150 for failing to remain at the scene of an accident.

"Part of administration is dealing with problems and the foundation, like any other group, is not problem-free," said Mr. Baker.

"At this point in time we are hearing from a vocal minority. It's a very frustrating thing being part of a vocal minority. Nevertheless, the majority of the directors of the Rehabilitation Foundation think provin-

cially and want to see an equivalent standard of service for everyone in need in the province."

Mr. Baker said in Vancouver today that he is responsible for carrying out policy decided by the 40-member board of directors, six of them from the Island.

**REDEFINED**

Last month the board redefined the chain of command it wanted and Mr. Ryan's dismissal followed a discussion of that policy with Mr. Baker last week.

**Part of administration is dealing with problems and the foundation, like any other group, is not problem-free," said Mr. Baker.**

"At this point in time we are hearing from a vocal minority. It's a very frustrating thing being part of a vocal minority. Nevertheless, the majority of the directors of the Rehabilitation Foundation think provin-

cially and want to see an equivalent standard of service for everyone in need in the province."

Eteka Heszelheimer, 23, of 1142 Yates, was fined \$100 for shop lifting.

She was arrested after a Hudson's Bay Co. store detective observed her putting clothing into a shopping bag and leaving the store without paying for it.

She was stopped on the street in possession of \$18.41 worth of store merchandise.

Value of the equipment was set at \$46.50.

A second meeting to debate formation of a free school in Victoria suggests interest in the project is blossoming.

About 200 people, both adult and young, crowded into the Student Union Building lounge at the University of Victoria Sunday night to argue the how and why of the project.

Supporters want to organize a school which would offer a liberal environment, free of many of the restrictions they see in the public school system.

About 70 people were at a meeting a week ago in the home of Paul Le Baron, 324 Stamford, where the idea was first publicly aired.

At that meeting Peter Bunn, school board chairman and Trustee John Porteous agreed to see that a brief which the free school advocates are preparing is debated by the board.

Sunday night's meeting included a National Film Board film, *Summerhill*, dealing with the first free school in England.

He graduated with his BA from the University of Toronto and later completed his MA and PhD programs at Harvard University.

## Neighbors Confer On Car Pool Plan

By PENNY SAVER

With the beginning of the school term in sight the neighborhood women decided it was time to think of car pools. We had an almost fool-proof one last year with everyone doing their part with only occasional failures. Organization was the answer to our success so we held an organizational meeting to start working out a new, fool-proof schedule for the coming year. One of the women practically begged to have the meeting at her house. She moved in mid-winter and was the only flaw in last year's plan. Her youngsters had to be fitted in at the cost of tedious redistribution and re-organization. The delectable sandwiches and yummy cakes she served us made up for past inconveniences, however, and she has many excellent suggestions for allowing for emergencies such as a new family. The meeting was a great success and our car pool promises to be better than ever.

Being me, I was as intrigued by the plate in my hand as by the outcome of the meeting. It was larger than a bread-and-butter plate yet smaller than a dinner plate. It was, in fact, just the right size to hold a couple of sandwiches and a morsel of cake securely. The background was white with a gilt trimmed edge and, in the centre, an arrangement of fruits. On mine the grapes took the foreground, but peeking at another I saw that the centre motif featured a pear. A large plate covered in sandwiches proved to be a match to the set. It was a foot, at least, in diameter. I learned from my hostess that these are the best West German porcelain, made by a company that started in the 18th century. A single small plate is \$1.35 while the serving plate is \$4.95. A nine-piece set (eight small plates and one serving plate) costs \$14.95. The small plates show six different patterns in the fruit motif, in bright, but muted colors.

### Snack Dishes Make a Tapering Tower

I had offered to help Jayne clean up after a small gathering at her house. By the time we had man-handled one or two chairs, moved to clear the floor for dancing, back into their places I was beginning to wish I had stayed silent. Tactfully, Jayne suggested a coffee break. The first thing I noticed as I sank exhausted into a kitchen chair was a tapering column of tubs, orange and green. "Cute, aren't they," said Jayne, turning them so I could see the writing on them. These are three snack containers that nest into one another when not in use. Made of some sort of plastic they are black inside and have an orange lid in common. Each is a bit smaller than the other and is smaller at the bottom so they can be piled piggy-back to make a tower that tapers down to the base. Each, as I mentioned is labeled as to intended contents. The complete set is \$3.95.

I thought rug-beating had gone out of style until Mathilda gave me a brand-new beater and suggested I try it. This beater has a springy handle made of several twisted stalks of bamboo held together at the bottom by a piece of metal. At the top the bamboo stalks are woven into a complicated clover-leaf design to make a flat beater for the rug. "You can't get exercise with a vacuum," said Mathilda sagely, as she gave it to me. I have found this \$1.35 beater can be handy up at the cabin for beating the dust out of tarpaulins and sleeping bags.

If you would like to know where I shopped for these items, please call me at 382-3131.

### THE BETTER HALF

By Bob Barnes

### TODAY'S RECIPE

"Praline Crumble Nectarine" is a dessert that pays big dividends for the short time you'll spend making it.

Spiced nectarine slices on the bottom of the baking dish get a sweet pecan praline-like topping. If you really feel like it,

*Be Smart*

Don't underestimate lady-like touches of white to freshen up a navy so-so crepe. Add circles of crisp voile to neck and sleeves, little satin bows in strategic places or a huge organza bow at the throat or under a suit jacket.

Anso Dent\* does it in one half hour when others take all night.

PHARMACO (CANADA) LTD.  
\*Trade mark

Crocheted animals are always in demand by youngsters and bazaar conveners. Send for the pattern for these ducklings, Pepi the Poodle and Puppy. They're great fun to make.

DEAR ABBY . . .

### Brief Visit Cure For Missing Shorts

By ABIGAIL VAN BUREN

DEAR ABBY: Today while doing my dishes I just happened to glance out of my kitchen window in time to see my next door neighbor take two pairs of shorts she lifted off your clothesline, and don't be bashful.

Do I have to get a marriage licence and blood test here first, or can I do it over there? If I do get married in France, will my marriage be recognized here? We are both over 21, if that makes any difference.

#### MAKING PLANS

DEAR MAKING: You must live in France for 30 days before you can be married there. You'll not need a blood test, but you WILL need a French marriage application, which you should get in France. And yes, your marriage will be recognized here.

Should I talk to her about this? Or should I ask my husband to speak to her husband about it?

#### EYE WITNESS

DEAR EYE: Leave her husband (and yours) out of it. Just pay her a visit, tell her you came to collect the two pairs of shorts she lifted off your clothesline, and don't be bashful.

If you really want to teach her a lesson, wait a few weeks, and then tell her that you were very much surprised to discover that HER husband was wearing YOUR husband's shorts. (She'll go crazy wondering how you found out.)

DEAR ABBY: My only son is stationed in Vietnam. He has been there for three months. Shortly before he left, he became engaged to a girl he had been going with for two years.

Last night he TELEPHONED her, and I am very hurt and upset because he has never telephoned me. He just told her to call his Mom and give her his love. Am I foolish for feeling as I do?

NO NAME PLEASE DEAR NO NAME: Yes. You are to be congratulated for having raised a healthy, normal young man who is able to separate romantic love from mother love. The world is full of unhappy wives who would give anything to be married to a man like that. Cheer up, Mom.

DEAR ABBY: I plan to go to Paris to meet my fiance who is also an American citizen. There is a good chance that we will

#### IDE BE MIFFED

After all, she should be most qualified to determine what namesakes are most appropriate for her three daughters.

However, when her husband called, "Rose, Joyce, and Marie," and the daughters AND the pigs came running, could he tell which was which?

HATE TO WRITE LETTERS? Send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069, for Abby's booklet, "How to Write Letters for All Occasions."

#### WOMEN OFTEN HAVE KIDNEY IRRITATION

Common Kidney or Bladder Irritations affect thousands of women, and may cause tenesmus and nervousness from frequent passages. Secondly, you may lose sleep and have Headaches. Besides, you may become depressed. In such cases, CYSTEX usually brings relaxing comfort by curbing germs in acid urine, and easing pain. Get CYSTEX at druggists today.

#### LEARNING TO SWIM IS FUN AT PACIFIC SWIM SCHOOL

### KNIT AND CHAT

## Always Test Knitting Tension

Dear May — Some time ago you published an article on the different types of yarn and each category each came under — example double knitting and which types of wool would come under that heading. I keep a scrap book of all your columns but misplaced this one. If you would be kind enough to send me a copy it would be greatly appreciated. — Mrs. M.K., Odessa, Ontario.

Mrs. M.K. also asks if there is a standard stitch gauge using each weight of wool with each size of needle? For example — double knitting with size seven needles, how many stitches to the inch and how many rows to the inch?

It's extremely hard to give a correct stitch gauge for all types of yarns knitted on No. 7 needles. Let me put it this way, double knitting wool is usually worked on No. 7 or No. 8 needles, depending upon the brand and the stitch being used.

Some double knittings appear much heavier than others; this is due to the type of fibre in the fleece, and also the way that the yarn has

not been spun. Some yarns are spun much tighter than others, some are 3-ply others 4-ply.

The real test and the only sure way, is to test the tension before commencing your knitted garment. If you say, you buy your yarns by mail, ask them to specify the various weights, it usually does appear on the color card. If the instructions call for a 4-ply weight of yarn, you should use a 4-ply weight as a substitute.

Pepi the Poodle and Puppy are adorable crocheted animals that can be made for your favorite small fry or bazaar or sale of work table that will be coming up with the fall! Finished size of

poodle — 11½ inches high, Puppy — 9 inches high.

Instructions are on Leaflet 6822 which also contains directions for a duckling. To order, send 35¢ in coin or money order, together with a 5¢ stamped self-addressed envelope to: May E. Mac Lean, "KNIT AND CHAT 55," c/o The Victoria Daily Times. Please be sure to state pattern number when ordering.

### SEW SIMPLE

#### ELASTIC WAISTBANDS WORK BEST IN KNIT SKIRTS, SLACKS

Dear Eunice Farmer,

How can we adjust a pattern so that we may eliminate the waistband of skirts and slacks and use the elastic like the ones you find in ready-to-wear? — Mrs. R. B. W.

Dear Mrs. R. B. W.:

I have checked with ready-to-wear clothes and find that the only waistbands that are cut with a casing and use elastic on skirts and slacks are made of knit fabric. The stretch in the knit fabric works beautifully with this kind of finish. However, it would never work with other fabrics.

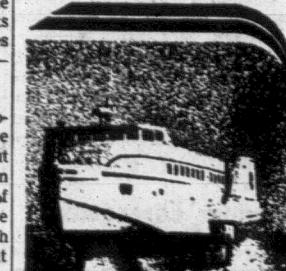

The garment would have to be cut much larger at the waist than necessary in order to be able to get it over your shoulders or up over your hips so that the fabric would be bunched and not give you the results you would like.

#### TAILOR TRIX WINNER

Mrs. June K. Ahrens, Rolla, Mo., is this week's Tailor Trix pressing board winner for her following tip.

"I'm one of those people who goes on a sewing spree and leaves my sewing machine open for days (or weeks) at a time, sewing whenever I can snatch enough time. I've found that an inexpensive pleated rain hat will fit over the head of my sewing machine just right. It makes a dandy dust cover, keeping your machine in working order. It's

so handy, takes up very little space when folded flat and not in use and it takes no time to put it on or take it off!"

## Afternoon Off For Wedding Day

By ELIZABETH BENNETT

Martin and Jacquie Jenkins almost didn't get married. Martin was so busy with rehearsals that they couldn't plan ahead. As Jacquie explained in a recent interview, such inconveniences are all part of the price you must be prepared to pay when you marry a man in the theatre profession.

"Finally the director gave Martin a free afternoon, but we can imagine how rushed we were," said Jacquie recalling the incident. "At times like that it really bothers me. And at Christmas when we would like to have the family together, Martin may have to direct a Christmas play."

But Jacquie has become accustomed to the disadvantages of being the wife of a professional theatre man. She even finds that "living from day to day can be quite exciting."

## HERE AS DIRECTOR

With the University of Victoria's summer theatre workshop production of "Romeo and Juliet," of which Martin Jenkins is the director, just days away, Jacquie was looking forward to quite a bit of excitement. "I hope it won't be too hot next week," she said with an anxious glance at the clear skies. "Last year actors were fainting backstage and some of those costumes are quite heavy."

Last summer Jacquie and daughter Gemma, then only a few months old, stayed at home in Walton-on-Thames, England, while Martin travelled to Victoria. "I didn't expect to be able to come this year," Jacquie added, "but she's glad she did."

Active Gemma is an enthusiastic about Victoria as her parents, showing an aptitude for adding Canadians to her speech. "I don't know what my parents will think when they hear her saying 'hi' and 'cookie,'" said Jacquie as Gemma demanded the latter treat. "She heard someone say OK once and it was OK to everything all day."

## MIDNIGHT RISINGS

But while Gemma has taken well to her temporary home ("except for the gain of four hours going across the country—she woke at mid-

night and insisted we had to get up"), she may prevent the Jenkins from seeing more of Canada. "We will have to see how she travels. I would like to travel through the Rockies if Gemma will sit still and look at the scenery," Jacquie added wistfully as her daughter tried to clamber out of her high chair.

While she is interested in drama, Jacquie hasn't acted since she left university where she studied French. "It's so hard to get a baby-sitter in the evenings," she explained.

Besides, she doesn't think both husband and wife should be in the drama field. "If you have nothing else to talk about you lose touch with life. It's Martin's job and sometimes he just wants to come home and forget it."

"Of course we have a lot of good friends who are actors. But an actor is always worried about how he looks as an actor. He needs reassurance. If you want to know him as a person you can't be reassuring him all the time."

It was during a university theatre production that Jacquie and Martin met. "He won the National Union of Students award for the best actor. The next year we were both in Ibsen's 'Brand.' I played Gerd the mad girl and he was Brand. The play won the NSU award. Of course, this was all before Martin became a professional."

"My husband always casts me as a mad-woman or a witch in plays he directs," laughed Jacquie, looking very sane. "I really don't think it is fair, but you can't argue with the director."

Will the Jenkins be returning to Victoria next summer? Jacquie doesn't know. "We don't look past the next production."

## Of Personal Interest

## TO ATTEND PARTY

His Honor the Lieutenant-Governor and Mrs. John R. Nicholson will be honor guests when the Seniors' North West Golf Association hosts an early evening party at the Victoria Golf Club this evening.

Later, His Honor and Mrs. Nicholson will attend the presentation of "Romeo and Juliet," the presentation of the University of Victoria's summer theatre workshop, to be held in the Phoenix Theatre. Capt. D. Kilshaw will be the aide-de-camp in attendance.

## Return Home

Mr. and Mrs. Howard J. Thornton returned to their home at the South Goodacre Towers this weekend after spending a week in Toronto. While there, they attended the four-day fourth annual conference of Canadian Association for Children with Learning Disabilities. The ACCLD meeting was held at the Ryerson Polytechnical Institute and approximately 900 delegates from Canada and the United States attended. Top-ranking professionals from both countries gave a series of lectures on the perceptually handicapped child.

## Birthday Celebration

Mrs. W. H. Thomas celebrated her 90th birthday at the home of her daughter, Mrs. Gene Atkins, 1828 Quamichan Street, Wednesday. Family and friends called during the afternoon and evening to extend their congratulations. Travelling from out-of-

town for the event were her son, Mr. Clarence Thomas and his wife of Ottawa; a daughter, Mrs. F. E. (Montie) Dowdie, Prince Rupert, and a grandson, Mr. Charles Croft and his wife, of Vancouver.

## Baby Christened

The infant son of Mr. and Mrs. Glen McColman received the names Shawn Matthew at a ceremony in St. John's Church Sunday. Canon Grahame Baker officiated. Godparents are Mr. and Mrs. B. D. McMillan of Victoria and Mr. and Mrs. Wallace Williamson of Duncan. The baby is the grandson of Mr. and Mrs. H. Moore, Lang Street, and Mr. and Mrs. R. McColman of Red Deer, Alta. He is the fifth great-grandchild of Mr. Tom Kelway, Victoria. Following the ceremony a family tea was held at the Balfour Place home of the baby's parents.

Mrs. W. H. Thomas celebrated her 90th birthday at the home of her daughter, Mrs. Gene Atkins, 1828 Quamichan Street, Wednesday. Family and friends called during the afternoon and evening to extend their congratulations. Travelling from out-of-

Seventeen-months-old Gemma Jenkins developed a case of hero-worship when she posed for this picture with her mother. Photographer Bill Halkett reports she's all set for a modelling career. Mrs. Martin Jenkins and her daughter are seen in the garden of the house at 3485 Willerton Road which the Jenkins have rented for the summer. The family will return to Britain before October.

## WHY GROW OLD?

By JOSEPHINE LOWMAN

Those Fringe Benefits  
Make Bathing Pleasant

Every child naturally discovers there is beauty in soap bubbles, but a girl has to grow up a bit to appreciate the full extent of that simple truth. There is even more beauty in a sudsy bath than in a bubble and it is longer lasting.

While you bathe for the sake of cleanliness, it would be a pity to miss the fringe benefits that turn a daily routine into a pleasure. Soap suds have a way of soothing the spirit as well as the skin and bathing is one exception to the light-hearted quip that everything that's fun is either immoral or fattening.

Even if you can allow only a few minutes for a bath, use some of them for sheer relaxation. Close your eyes, put your head on a bath pillow, wiggle your toes and postpone all problems until later on.

Then begin the beauty treatment in earnest. Use a well-lathered bath mitt or brush or loofah to massage your skin all

over. The warm soak has helped open pores so that a thorough cleaning is easier. Pebbled knees and elbows are more responsive to scrubbing. Heels, soles and ankles are softened with a brisk application of suds.

No matter how you usually wear your hair, the best way at bath time is up. Pin it high, exposing the ears and the back of the neck. Then you will not be tempted to slight these areas for fear of spoiling your hairstyle. The skin of the ears and neck collect natural oil and cosmetic residue, and don't forget to use a long-handled bath brush on your back.

If you are an ardent advocate of the tub bath over the shower or vice versa, compromise for a change. Combine the two methods and enjoy the benefits of both. After soaking in warm water to hot suds, let the water drain out of the tub. Then rinse off under the shower. Stand up

under an invigorating needle spray or sit down in lazy comfort while a gentle fall of water melts the soap away.

If bedtime is your favorite bath time, mildly warm water for bathing and rinsing will promote the indolent mood which best induces sleep. Use a towel to blot yourself dry, saving the brisk rub for some other time.

You can combine a manicure with your daily bath. Even if the polish does not need changing use an orange stick to groom the cuticle while your hands are soft from the suds.

The grace and ease with which a woman moves have everything to do with her charm. Josephine Lowman gives exercises that increase grace and tips on how to achieve the elusive quality so sought by women in her free leaflet, "Grace and Charm." To receive your copy send a stamped, self-addressed envelope with your request for it to Josephine Lowman in care of this newspaper.

## Women Plan and Make Coup— Take Over Town in Illinois

By DAVID L. ANDERSON

ELLISVILLE, Ill. (AP) — It's a woman's world in Ellisville. The powder-puff revolution hit Ellisville—population 118—in April 11, 1961.

Like many another groups of revolutionaries, the Ellisville females wanted power. They wanted the men out.

Three women—Matilda (Thel) Forneris, Fern Tourtillot and Shirley Knott—coolly planned and executed a coup. They deposed village president Roy Butler and two of his aides.

Showing a compassion rarely seen in such blatant power grabs, the women allowed Butler and his cohorts to remain in Ellisville.

Now the women are running things. All things.

Tillie is village president.

All seven members of the board of trustees are women.

The treasurer is female.

So is the clerk.

Ellisville has a postmistress.

A woman even mans the pumps at the town's only service station.

It was all done over backyard fences. Quietly.

Courageous Woman  
Sets Fine Example

TORONTO (CP) — There was a night in March when Marj MacGillivray, a 47-year-old suburban housewife, thought she wouldn't see the morning.

"I thought Frank, my husband, was going to have to eat breakfast alone," she said. "I had given it all I had and I just couldn't fight any longer."

But something happened and "all of a sudden my bones seemed to knit together and I knew I was going to be here tomorrow," she recalled.

For those who are sure they are going to be around tomorrow, this may not have much significance, but Mrs. MacGillivray has been fighting cancer—and winning.

After three major operations for cancer of the chest, Mrs. MacGillivray thought she was losing the fight.

Recently her physician, Dr. Ross A. Dobson, described her progress as "very favorable."

He said more people with cancer could benefit from Mrs. MacGillivray's attitude and should take advantage of every opportunity to enjoy life.

Her determination has kept her busy helping her husband build a small plane in the basement of their home.

Flying has always been one of Mrs. MacGillivray's loves and this is the second two-seater plane she and her

menfolk, for the most part, work in other towns. This made the conspiring even easier.

The few who found out what was about to happen evidently were awed into silence.

The town ladies wrote in the names of the aforementioned conspirators. There are more male voters in Ellisville than female, but elections in Ellisville don't normally inspire, overly-large voter turnouts.

"Like when the weeds in front of city hall got too high a bunch of us would get our mowers and go over there and cut them. Now they have to hire someone to do it," he mused.

Taxes have increased since the women took over, the women said, but nobody knows how much.

The lady treasurer can't find the old records.

Members Audit Bureau of Circulation.

TERMS OF PUBLICATION

The Victoria Press Ltd. shall not be liable for non-insertion of any advertisement, unless paid in advance, for such advertisement, in the event of an error occurring in the printing or in the preparation of the copy, provided that the error does not exceed the charge for the space actually occupied by the item in question.

All claims on errors in publication shall be made within 12 hours thereafter and if not made shall not be considered. No claim will be allowed for errors in the preparation of the copy, provided that the error does not exceed the charge for the space actually occupied by the item in question.

All advertising copy will be charged with space actually used.

All advertising copy will be submitted to the Victoria Press Ltd., who reserve the right in their sole discretion to classify, reject or disallow copy, if found objectionable.

While every endeavor will be made to forward replies to box numbers to the advertiser as soon as possible, no guarantee can be given as to the safety of the mail, damage or loss of damage alleged to arise through either failure to forward replies to box numbers however caused, whether by negligence or otherwise.

## PICKETS PICKET PICKETER

By ROGER STONEBANKS

Labor picketed management today because management was picketing labor and management.

If it sounds confusing, that's the way it is at an apartment building site on Dunsmuir Street in Esquimalt.

The first picket began Friday and continued this morning as three masonry contractors protested a striking bricklayer working on the apartment and the hiring of him by the Vancouver developer putting up the building.

The second information picket was hoisted shortly after noon today by the Vancouver Island Building and Construction Trades Council, an association of construction trade unions.

H. A. Ormiston, chairman of the masonry section of the Amalgamated Construction Association, said striking bricklayers shouldn't work for someone else and other contractors should not hire the 12 men who voted for the strike which began one week ago.

He has circulated a "do not hire" list (the bricklayers call it a blacklist) identifying the 12 men by name and by social insurance number.

### CIRCUMVENT GIMMICK

John Schibli, secretary of the building trades council, said its picket was to inform people that the management picket "is not a picket line but an employer's gimmick to circumvent the bricklayers strike."

He said the bricklayers union has a signed agreement with the employer at the apartment site so there is no strike there.

Mr. Ormiston, whose sign reads "bricklayers working here are on strike," said some union men — including truck drivers from a utility company, a builder's yard and a cement factory — did not cross his picket line.

Work on the site, however, could be observed as continuing both Friday and this morning.

Mr. Ormiston said there are three key items in dispute with bricklayers — a union request to eliminate an anti-moonlighting clause; whether the wage increase should be retroactive to the last contract which ended March 31, and changes in travel time. The amount of the wage increase — 77 cents an hour over two years — has been agreed on.

The existing clause on moonlighting reads: "Members of the union, while employed under the terms of this agreement, shall not work at their trade after hours or on Saturday or Sunday, except on their own premises. This clause will not interfere with the intent of clause 4, overtime, and any violation is to be reported by either party to this agreement for necessary action under restrictive bylaws."

Mr. Ormiston said contractors are not prepared to "step down on this issue that would allow union members to seab."

### SITUATION COVERED

T. B. Fleming, business agent for Local 1 of the Bricklayers, Masons and Plasterers International Union of America, said the union believes the situation is "covered effectively" by another clause in the old agreement.

This states: "The union shall permit its members to work only for employers who have signed this agreement. However, this does not apply to municipal, provincial, federal government or utility work when such work is not done by a contractor signatory to this agreement. Neither members of the union nor the employer shall contract for work in the province of B.C."

Mr. Ormiston said the union needs a full-time official, or a servicing arrangement with a full-time official of another union, to enforce the agreement.

"We can't compete with our own employees and stay in business," he said, mentioning that a warehouse on Alpha Street was built by a union bricklayer, after hours, during negotiations.

He said the union is insisting the three masonry contractors sign the same agreement as the major contractors did in the Vancouver area.

The union has said it is seeking a standard agreement throughout the province.

ATTENDING first parliamentary caucus since the June 25 general election, former Socred leader Robert Thompson, centre, joins John Diefenbaker, right, and George Hees as Conservative members of Parliament

## Hope for Tory Comeback Seen In Statistics

TORONTO (CP)

The Globe and Mail says a two-volume statistical analysis of how the federal Progressive Conservative party fared in the June 25 election indicates the party still has a base that could enable it to win the next election.

"We were supposed to be wiped out in the election," Malcolm Wickson, the party's national director, is quoted as saying in an Ottawa interview.

"In point of fact, we weren't. The quiet people are still with us."

The newspaper says sections of the analysis dealing with urban voting patterns are probably the most revealing.

The Conservatives won only 72 seats in the election — down from 97 in 1965 — and of these 72 a scant eight were in Canada's nine largest cities.

These cities — Montreal, Toronto, Vancouver, Edmonton, Calgary, Winnipeg, Hamilton, Ottawa and Quebec — account for 85 seats, or almost one-third of the Commons' 264 seats.

### LOST 7 URBAN SEATS

The eight urban seats won by the PCs were seven fewer than their total in the 1965 election, as they lost three seats in Winnipeg, two in Ottawa and one each in Calgary and Edmonton.

The Liberals, meanwhile, won 66 of the 85, the New Democrats 10 and the Ralliement des Crétinistes the remaining one.

In terms of popular vote, the analysis says, the Conservatives ran first in only one city, Calgary, second in four and third in four. The Liberals ran first in eight cities and second in Quebec while the NDP ran first in one, second in three, third in five and fourth in Quebec City.

The Globe and Mail says that since the general election, officials at party headquarters in Ottawa have been studying what went wrong, particularly in these cities, in Quebec and in British Columbia.

From a Conservative point of view, the city results became bleaker if Calgary and Edmonton, which each gave the PCs three of their four seats, are deleted from the calculations.

### BLANKED IN TORONTO

The party won only two seats, Hamilton West and Montreal's Sainte-Marie, of the 77 seats in the remaining seven cities. It was blanked in Toronto, 20 seats; Vancouver, 11; Winnipeg, six; Quebec City, six, and Ottawa, five.

Although the analysis is generally discouraging, The Globe and Mail says, there are bright spots for the party.

The PCs dropped to 23.3 per cent of the popular vote in all nine cities from 26.0 per cent in 1965, but they polled almost the same number of votes as in 1965.

In 1965, they received 694,956

## Conservative Caucus Maps Session Plan

OTTAWA (CP)

Conservative MPs and senators met in caucus today to discuss results of the June 25 election and make plans for the parliamentary session expected to start in mid-September.

Opposition Leader Stanfield told reporters the party is already laying the groundwork for the next election.

Most of the 72 MPs and a handful of senators turned up for the meeting in the regular caucus room on the third floor of the West Block on Parliament Hill.

John Diefenbaker, the former prime minister re-elected in Prince Albert, told reporters he did not believe in party leaders attending caucus sessions.

"Discussion is not as free when the leader is present," he said.

Among those on hand was Robert Thompson, former national leader of the Social Credit party elected as a Conservative in Red Deer, Alta.

## Bikini Safe Again After A-Bomb Tests

AUSTIN, Tex. (UPI)

Bikini atoll, site of more than 20 nuclear tests between 1946 and 1958, is once again safe for human habitation, the White House announced today.

A spokesman said plans are under way to permit the

## Error Ends 3,000-mile Band Trip

GLASGOW (Reuters)

A Canadian women's pipe band travelled 3,000 miles to compete in the Scottish pipe championships here — and was disqualified almost immediately for a breach of rules.

The Heather Bell Ladies' Pipe Band from Winnipeg should have played at least eight parts of a march tune during the weekend championships, but by mistake played only four. Under a new rule introduced by the Scottish Pipe Band Association, this meant disqualification.

An official of the association explained that previously bands had been required to play only four parts. The new rule was introduced because it was felt four parts did not give a band sufficient time to show its capabilities.

Bands throughout the world had been told of the change and the Canadian girls admitted their mistake, he said.

## Loggers Return At Sproat Lake

PORT ALBERNI — Three hundred loggers at the Sproat Lake division of MacMillan Bloedel returned to work this morning, an official of the International Woodworkers of America reported.

The men refused to work last Thursday in a dispute over handling burned wood at the scene of a forest fire at Taylor Arm last year.

Local business agent John Squire said the men went back because the plant chairman is on holiday. There will be further meetings with the company when he returns later this week, he said.

"Unless the company changes

its attitude this is going to be a continuing problem," he said.

"Those guys come out of there looking like coal miners but at least coal miners have washing rooms, even 40 years ago in Nanaimo."

A company statement said the refusal to work was the third wildcat strike since the signing of the new coast master agreement last month. It asked on the IWA to order the workers back on the job.

The company has been paying a 10 cents hourly premium for "dirty work" but the workers want 50 cents and say the 10 cents has not changed since 1948.

### 'DANGEROUS BOATING'

TOFINO — A commercial fisherman who rammed two other boats with his trawler at the fishing wharf here was fined \$150.

Leonard Silvey of Sooke was convicted on a charge of dangerous boating. The incident occurred last week,

## Ulbricht Woos Czechs; War Games on Border

KARLOVY VARY (CP)—Walter Ulbricht, hard-line East German Communist leader, and other high officials of his regime arrived in this West Bohemian spa today for talks with Czechoslovakia's reformists on political and economic relations.

Ulbricht was greeted on his arrival by Czechoslovak party chief Alexander Dubcek, the man he tried to get the Kremlin to unseat and whose liberal reforms he has opposed so vigorously.

Ulbricht is expected to try to solicit further guarantees from Prague leaders against any encroachment of West German influence here.

Under strong pressure, Czech party leaders now are expected to slow down whatever ideas they had of developing eco-

nomic and diplomatic ties with the West German republic.

Ulbricht also is known to be deeply concerned over Czechoslovakia's attitude to the Warsaw pact and co-operation with the Soviet Army and Soviet security apparatus in halting Western infiltration, particularly from West Germany.

But as the East German leader drove from the airport today he must have seen tourist buses bringing more visitors from West Germany into this spa town, a favorite meeting place for citizens from West and East Germany.

Ulbricht's visit in this small town 100 miles from Prague is expected to be brief—possibly only 24 hours.

East Germany was the first Communist state to sound the

alarm against Prague's liberalization moves and, possibly even more than the Moscow leadership, Ulbricht senses in the Czech reform program the knell of his own brand of government.

Ulbricht was expected to ask the Czechoslovaks for assurances that their dealings with West Germany will not harm the position of his regime.

Among the topics Ulbricht is expected to present is his latest scheme for seeking recognition from the Bonn government, which treats its country as the Soviet zone rather than an independent sovereign country.

Efforts by Mr. Kierans during the weekend failed to settle the labor dispute and the postmaster-general announced Sunday night Rod Service's contract with the government had been suspended.

Mr. Kierans accused the union that bargains for Rod Service employees of walking out of settlement talks Saturday night.

The postmaster-general said the drivers had been offered two options—a cash settlement of a week's pay to all permanent drivers or arbitration under a provision in their contract.

He said he had no choice but to provide an alternate service when the drivers rejected the monetary offer and would not submit the dispute to arbitration.

STRIKE ILLEGAL

The contract calls for the firm to pick up mail at letter boxes, carry it between post offices and transport it to rail or air depots.

Mr. Kierans said the strike is illegal because the workers did not exercise all the options available to them before walking off the job.

The drivers, members of a union affiliated with the Confederation of National Trade

NEEDS CREDITS

The new regime in Prague has indicated that it would like to develop relations with West Germany in hopes of getting hard currency credits it needs to modernize its industry, and any break in Soviet-bloc hostility toward the West Germans upsets Ulbricht.

His visit follows the hero's reception given President Tito of Yugoslavia, who met with Czechoslovak leaders during the weekend, and precedes a visit expected Thursday by Romanian leader Nicolai Ceausescu.

Meanwhile, Russia Sunday announced new military man-

## Wanted: 20,000 New Jobs By Growing, Attractive City

### TATTOOED PRISONERS ESCAPE

Two men who escaped from William Head minimum security prison over the weekend were still at large at press time.

Four others have walked out of the prison within the last three weeks. Three have been recaptured.

Police say Nelson Hoare, 25, and Alfred William Gensick, 28, apparently walked out between 8 p.m. and 10 p.m. Saturday. Neither is considered dangerous.

Joseph Kenneth Pitt, 40, who escaped Aug. 5 is still at large. Gensick is described as 5 feet 10 inches, 165 pounds, hazel eyes, brown hair and heavily tattooed.

Hoare is five feet 11 inches, blue eyes, blonde hair, fair complexion, wears glasses and is also tattooed.

Both were serving sentences started early in 1967 for breaking and entering and were scheduled for release next year.

Two of the men who escaped July 26 were sentenced to an additional year and the third received nine months for the escape.

### 20 to Attend Special Camp At Shawnigan

A camp with an international flavor will be held at George Pringle Camp, Shawnigan Lake, starting Saturday.

Twenty 11-year-old children will attend from many parts of Vancouver Island.

The camp has been organized by the Island branch, Children's International Summer Villages, which normally arranges visits by Island children to countries abroad.

In 1966 four Island children were sent to an international summer village in Norway, where they stayed with children from the United States and various European countries.

In 1968 children from many countries will be guests at an international summer village at Shawnigan Lake where Vancouver Island children will be their hosts.

"This will call for careful planning and the wholehearted support of our members," says Anna F. Wootton, branch president.

"With this in mind, we are not sending a delegation abroad this year. But we hope the camp at George Pringle will promote our international objectives."

Donations can be sent to the Treasurer, Children's International Summer Villages, Vancouver Island, Box 882, Victoria Post Office.

### Official Dismissed in Dispute About Campaign Fund Policies

A dispute over administrative policy has led to the dismissal of Rod Ryan as executive secretary of the Vancouver Island office, Rehabilitation Foundation of B.C.

The foundation is a provincial organization which works jointly with the B.C. Society for Crippled Children in raising funds and operating programs for the handicapped.

Mr. Ryan, who could not be reached for comment, had held his post in the local office for four years when he was fired Thursday by executive director Norman Baker of Vancouver.

The new executive secretary of the Victoria office is Ray St. Dennis, 38, of Lake Cowichan, a foundation director for the past three years.

#### FUND DISPUTE

The dispute which led to the changeover appears to centre around the distribution of campaign funds. These come mainly from the Mothers' March campaign and Foundation policy is to use money on the basis of need, not by region.

### Postal Workers on the Run For 'Christmas' in August

A heavy rush of incoming mail to Victoria from other parts of the country is "a little reminiscent of Christmas," a post office spokesman said this morning.

Information officer Ken Stofer said previous estimates that it would take a week for this to return to normal have been revised to perhaps three weeks.

A Times five-part series last week studied the problems of Greater Victoria's growth, the rapid and continuing urban development which has come about as a result of explosive population increase over the past decade.

One of the primary factors which will affect the pace and quality of development here is employment, and staff writer Bruce Yemem examines this subject in two articles starting today.

By BRUCE YEMEN

Any resemblance between Greater Victoria and an anxious job-hunter is understandable.

It needs about 20,000 new jobs in the next 13 years.

Regional authorities aren't exactly sure where the jobs will come from but most are hopeful they will be found.

Like most job-hunters, the area prefers security, good wages and fringe benefits.

But it's likely Greater Victoria won't be able to be too choosy in the kinds of jobs it accepts.

The regional population projection for 1981 is about 238,000, an increase of 65,000 over today's 173,000.

The usual ratio of 350 jobs for every 1,000 population growth — it's too desirable a place to live. People just keep coming.

But it still makes necessary

#### Lack of Statistics Hamper Forecasters

The choice then, stated oversimplly, is between finding the needed jobs and being saddled with high unemployment, restricted community services through loss of tax revenue and a host of associated ills.

So where will the jobs come from?

There are no precise answers.

Besides the usual future variables and unknowns that haunt planners, there is a serious lack of accurate yearly statistics to chart employment patterns.

The only way to predict the future is to study the past, and the best employment picture is provided by the national census conducted every 10 years.

#### Defence Establishment Steadily Reduced

But the impact of that setback is small in comparison with that of the gradual decrease in the federal defence establishment here from 9,500 persons in 1961 to 6,900 in 1968.

Using the 1.5 multiplier, a total of 3,900 lost jobs in service and trade must be added to the 2,600 "basic" jobs lost for a total loss of 6,500.

The threat of further defence cutbacks and the inevitable rumors of the loss of forest product plants here, means the figure of 20,000 new jobs by 1981 should be regarded as a minimum. It could be much higher than that.

All across Canada the employment sector known as "community, business and personal services" has been growing most rapidly and the same has been true in Victoria.

This category, including educational, recreational and health and welfare services as well as a wide range of business and personal services, is expected to provide about half of the 20,000 jobs needed by 1981 in Greater Victoria.

Rising population and growth in income are causes of the "service explosion" as more people expect — and are willing to pay for — more services ranging from better medical care to better automobile care.

But these are mainly "secondary" jobs, dependent on other jobs being found in the basic sector.

Will these "bread and butter" jobs be found? Tuesday's article looks at some prospects.

It's a fact that for every new job in the "basic" sector of the local economy — such as in manufacturing, university, government, defence — about 1.5 jobs or so are created in the trade and service sector.

But it works both ways.

The closing of Victoria Machinery Depot's shipyard last year and the loss of 150 jobs meant that another 225 jobs in the trade and service sector were threatened.

It's a fact that for every new job in the "basic" sector of the local economy — such as in manufacturing, university, government, defence — about 1.5 jobs or so are created in the trade and service sector.

### RAIN PELTS FOREST FIRE NEAR BANFF

BANFF, Alta. (CP) — Rain began to fall early today on a huge forest fire burning 12 miles west of here and a National Parks official said it looked like more precipitation was moving in from the west.

The rain, heavy enough to ground fire-fighting aircraft on the Alberta side of the border, came after a report that brisk winds, constantly changing direction, were keeping the flames beyond the control attempting grasp of 375 fire-fighters.

Four tanker aircraft, one spotter and two helicopters were in the air when the rains came. Five Avenger aircraft and one spotter plane from Cranbrook were still able to attack the blaze from its British Columbia flank.

The blaze, which grew roughly four times in size during a sweep into Banff National Park from British Columbia, advanced half a mile during the night to within 28 road miles of this rocky mountain resort 60 miles west of Calgary.

### Perrault's Lead Cut

NEW WESTMINSTER (AP) — A judicial recount of ballots cast June 25 in the Burnaby-Seymour constituency has cut Liberal Ray Perrault's margin over NDP national leader T. C. Douglas, to 135 votes.

Results of the recount, conducted by a New Westminster county court judge, were announced Thursday night. The recount gave Mr. Perrault 27,891 votes to Mr. Douglas's 27,583. Social Credit and Progressive Conservative candidates trailed far behind.

John Laxton, provincial president of the NDP, said the party is considering an application for a British Columbia Supreme Court decision declaring the election void because of missing ballots.

Mr. Laxton, a lawyer, said there is a discrepancy in the number of ballots counted by the Burnaby-Seymour returning officer after the service vote was announced and the total the judicial recount revealed.

He said an application to have the election declared void would be made under the Controversy Elections Act, should the party decide to proceed with the move.

Mr. Perrault had a 152-vote lead over Mr. Douglas prior to the judicial recount.

## Language Rights Key To Joining Federation

FREDERICTON (CP) — The tins" but "we are simply asking CTF to accept a discussion on the concept."

The meeting tabled a recommendation of the CTF commission which called for "a greater emphasis on regular communication with members of Parliament." It also recommended that the practice of making annual submissions to the federal cabinet be continued.

The conference considers a board of directors report and elects new officers before closing today.

### Separatists Still Active — Spokesman

PARIS (CP) — The head of a new Quebec separatist group said today the election of French-speaking Pierre Elliot Trudeau as Canadian prime minister does not mean the end of "national sovereignty" movements in Quebec.

We have voted to set this up whether the CEQ enters the CTF or not, recognizing that there are quite a few teachers in other provinces using French as the medium of instruction and recognizing that they are a minority and that they should have special grouping in which they could discuss problems,"

### WANT SOME LINK

Raymond Laliberte, president of the CEQ, said at a news conference following Thursday's meeting that a survey of the organization's members had indicated 80 per cent "do want some sort of Canadian participation for CEQ, but don't know whether this would mean participation within CTF or within a new organization."

He said the CEQ, if it affiliates with the CTF, would expect an "influential role" in the French commission, although not a dominant one.

A recommendation in a report of a meeting between the CTF membership committee and the CEQ committee on affiliation in Montreal last month proved the only major contentious issue Thursday.

The recommendation that the CTF and CEQ agree to review their respective policies on the concept of "deux nations" prompted a national debate. The committee finally agreed to reconsider the recommendation before presenting it to today's meeting.

Mr. Laliberte said the CEQ was not asking the CTF to adopt the concept of "deux na-

### ... POSTAL

Continued from Page 1  
ommends that the outstanding matters of salaries and related monetary items be resolved by mediation."

Spokesmen for the 24,000-member council and treasury board agreed earlier not to comment on the report until this morning.

However, both bodies have said confidentially during their weeks of negotiating and conciliation that they would welcome a mediator.

### HAS SERVED BRIEFLY

Judge Rene Lippe served in this role briefly while the conciliation board was being established. A Quebec provincial court judge, he is known to be acceptable to both parties should they agree to further mediation now.

Council sources have indicated, through their various locals across Canada, that the report will not prevent a nationwide strike.

Union sources said a strike is scheduled for next Thursday, July 18. The council may legally strike late next Wednesday. However, an official announcement is scheduled for today.

The report on the conciliation board, headed by Prof. Andre Desgagnes of Laval University, said that with the exception of "two or three instances . . . the gulf separating the two parties was very narrow."

The problem of salaries remained unresolved "in view of the fact that the parties do not seem ready, at the moment, to make any concessions in this respect."

### NO WAGE OFFER

The treasury board "declined to make any wage offer" and the council "did not move from its original demands."

Some union sources have said a wage increase of some 70 cents an hour and a 14-month contract is being sought. This is a jump of about 25 per cent.

On other items in the proposed contract, the board unanimously recommended that it draft form the basis of a collective agreement.

Most of its proposals are standard to any first contract, including items such as a membership section, grievance procedure, seniority description, overtime and the like.

A dues checkoff is recommended that would include payments by all new employees in the bargaining unit and cover union insurance plans, a new system of labor-management committees at every level is proposed.

The five-day, 40-hour week would prevail, except at district offices where 37½ hours would be worked.

### OUTLINES PLANS

The government is also prepared for a walkout. Treasury Board President Drury, named to that post last Friday, issued an announcement Thursday outlining plans for early distribution of pension and welfare cheques for July.

With the early distribution and normal processing of certain federal cheques, all forms of assistance will either be delivered or be in mail by early next week, the announcement said.

Mr. Drury stressed that the plan does not mean the government has given up hope of a settlement in the dispute.

"We intend to do everything in our power to reach, without a strike, an agreement that is fair and responsible."

The conciliation board was established after the council broke off negotiations April 24. At least 46 items remain in dispute. Wages were never discussed.

A postal strike in July, 1965, made idle some 12,000 postal workers in Quebec, Ontario and British Columbia for up to 16 days. However, under new legislation and a more united union front, a strike this time will result in a work stoppage in all provinces.

### TIFF CLOSES CYC OFFICE AT MONTREAL

OTTAWA (CP) — An administrative dispute has forced the Company of Young Canadians to close its Montreal regional office, Stewart Goodings, CYC acting director, said today.

The CYC in Quebec was experiencing program and administrative difficulties."

He said the cabinet paved the way for the signing of the power-purchasing contract by adopting an authorizing order-in-council.

This follows signing by the government, on Oct. 6, 1966, of a letter of intent to buy electricity from the development in central Labrador.

The first two generators of the 11-generator power plant are scheduled to go into operation in 1972, with the remainder being switched into service gradually between 1972 and

1976.

Lessard, president of Hydro-Quebec, announced today the publicly-owned corporation has been authorized by the Quebec cabinet to sign a contract for the purchase of electric power from the Churchill Falls (Labrador) Corp. Ltd.

Mr. Lessard said in a statement the signing of the contract will take place as soon as the corporation "has completed the long-term financing" of the \$900,000,000 project.

He said the cabinet paved the way for the signing of the power-purchasing contract by adopting an authorizing order-in-council.

## CURES EXPENSIVE

## Prevention Stressed by Nurses

SASKATOON (CP) Health services in the future must concentrate on prevention as well as cure, the Canadian Nurses' Association was told Thursday.

Rita Doyon, assistant super-

intendent of the Montreal health department, said shortages of money and manpower will force a future emphasis on keeping well.

The public health nurse would become the pivotal

point of a team which might include nurses, doctors, dentists, social workers, nutritionists, educators, sanitary inspectors and psychologists or psychiatrists.

In clinics, schools or hospitals, she would meet families needing help and refer them to members of the health team for consultation and treatment.

Miss Doyon said children's health care and training from pre-school age to the end of adolescence must be a primary consideration.

Anne Christie of Fredericton, educational consultant for the New Brunswick Association of Registered Nurses, said there is a serious need in Canada for more nurses with master's and doctor's degrees for leadership and teaching positions.

Nurses with bachelor's degrees were qualified for first-level administrative posts.

"In bargaining, you don't get all that you want," said Evelyn Hood of Vancouver. "But you get a lot more than if you didn't ask."

Gertrude Hotte of Quebec City called collective agreements for nurses "an absolute necessity."

They were needed to interest nurses in working conditions and salaries.

Members of the panel, all employment relations officers for provincial nursing groups, outlined variations in labor laws and their interpretation from province to province.

All said the status of head nurses and supervisors is a problem if local laws class them as management personnel and exclude them from bargaining units.

"We're not only concerned about the economic welfare of the supervisory nurse," said Louise Tod of Edmonton, "we're concerned about the firing of nurses on the managerial level."

**MAKES IT DIFFICULT**

"It's very difficult to get them reinstated if they haven't got an agreement."

Other members of the panel were Kathleen Lewis of Toronto and Grae Stevens of Fredericton.

During discussion, the Saskatchewan Registered Nurses Association announced meetings will begin today to establish ground rules for province-wide contract negotiations with the Saskatchewan Hospital Association.

Ninety-one hospitals had endorsed the principle of voluntary recognition of staff nurse associations for collective bargaining.

Earlier, the executive director of the Geneva-based International Council of Nurses told an audience of about 1,000 that nursing can not survive as a profession if any country where the nurses' association does not work for the economic good of its members.

"I am sure that if we allow the responsibilities for economic security to leave the hands of the profession, other matters such as education and service will follow," said Sheila Quinn.

Nurses would have to learn a bout collective bargaining, "and we would do well to take a lesson from the trade unions in this," she said.

**Plot Crushed**

BUENOS AIRES (AP) — Argentine press dispatches Thursday said Paraguay has crushed a military plot against President Alfredo Stroessner's government.

Sultanov said he could find no convincing explanation for the mysterious explosion and advanced the collision theory after studying the orbits of all 1,726 known asteroids.

**MARS-JUPITER ASTEROID BELT THEORY BLOWN**

MOSCOW (Reuters) — A Soviet astronomer has concluded that the asteroid belt between Mars and Jupiter was created by the collision of at least 10 planets, the Soviet news agency Tass reports.

Tass said Gadjibek Sultanov, head of the Shemakha Astrophysical Laboratory in Azerbaijan, rejected the current theory that the asteroids are fragments of an exploded planet, named Phœton, which once orbited between Mars and Jupiter.

Sultanov said he could find no convincing explanation for the mysterious explosion and advanced the collision theory after studying the orbits of all 1,726 known asteroids.

## Arthur Mayse

Once, years ago, Allan Cox and I fell into disagreement over a municipal matter that does not signify here. It was a brisk set-to, and it left me with considerable respect for him as a man who not only had the courage of his convictions, but a highly-effective verbal punch with which to back them up.

That's one reason why I'm inclined to snicker when somebody suggests that Mr. Cox, Liberal candidate in the Oak Bay byelection, has been waging a powderpuff campaign.

His approach may lack the showmanship and slick high-pressure of the Social Credit blitz that has carpeted Oak Bay riding with the most frightful bumpf. But Allan Leslie Cox is no powderpuff politically or any other way. He is merely a man trained to a profession that demands evidence for claims and allegations made. The wild trumpeting, the rosy platitudes are not for him.

His firmly-stated facts land hard, however, and in a Legislative Assembly where debate oft-times takes leave of the realities, he would make his impact felt.

Mr. Cox dropped in between engagements on Thursday afternoon.

He is a big redhead, with a contained vigor about him. The sturdy newsroom chair complained when he leaned forward. With suit-coat shed, he looked thoroughly capable of the long if not always fairway-splitting golf drives attributed to him.

Down at Oak Bay Liberal headquarters, his wife, Margo, was hard at work. The Cox children have also helped by filling envelopes with his modest campaign literature. When school's in, daughter Nancy, 13, goes to Lansdowne Junior High, and son David, 10, to Willows Elementary.

Lawyer Cox is 40, and into those years he has packed a good deal of living. At the age of 14 he worked a summer as a section hand on the E and N Railway.

"Not because I had to," he explained, thereby throwing away a nice bit of rags-to-riches color, "but because I wanted to."

His mother, Mrs. Grace Cox, is of Lowland Scots stock, as was his father. As parents, they set an example of firm independence. They believed in boys going out to work.

"I worked at just about everything," he summarized, "and I'm glad, because of the people I met. To gain an understanding of people's problems, I think you have to get in and work with them."

The man who served Oak Bay for nine years, four of them as reeve, likes politics and makes no bones about it. This too, he feels he inherited from his parents, along with a responsible liberalism that will not condone the strictly physical government (the word is his) which he holds the Bennett regime to be.

He gives Premier Bennett full credit for his works, but sees need for priority spending.

"By that," he explained, "I mean seeing that the money is being spent where it should be."

Example: government's failure to honor the \$13 million school referendum, with the result that "whole group of children is going through school without adequate school libraries available."

He thought for a moment, then said, "We need the blacktop philosophy, but we need the other kind as well. Out of this compromise comes good government."

This is one of those reasonable statements that have caused him to be called a nice-guy campaigner. But he is also tough; quite tough enough, in fact, to stand against pressure aimed at decimating and eventually removing the Liberal bloc from Legislative office.

Allan Cox hopes to help thwart any such move.

"Trudeau went through the Bennett country like a dose of salts," he says with a grim smile. "It's important that we keep a Liberal group in there and one that is sure to gain constituents. The premier knows that while the Liberals have a foothold, there's a chance of a provincial comeback. It happened in Saskatchewan. It could happen here."

NILS CHRISTOFFERSON  
... shows off new foot

## HEALTH, SAFETY HAZARD

### 640 Sign Petition Urging Bowker Creek Be Covered

By GEORGE REAMSBOTTOM

creek is dangerous when it is running high at three or four feet and is also a health hazard. "The banks are slippery, it's slimy, children have suffered from skin breakouts with rashes and allergies and the creek carries horticultural insect poisons."

The petition asks specifically that a cement culvert be constructed over the creek where it cuts across the back of Richmond elementary school on Richmond Ave.

It points out that more than 600 children between the ages of four and 12 attend the school. The creek cuts the playing field in half.

#### AGAINST FENCING

The petition opposes a suggestion by Saanich council that the creek be enclosed by a fence.

"This would be an extreme waste of municipal taxes as it would only be a makeshift measure. Eventually, the culvert would have to be built anyway," says Mrs. Hugh Mathews, president of the Richmond School Auxiliary.

Mrs. Mathews says she was authorized by the auxiliary to write a letter to council in June requesting action on the creek. "Council suggested the fence so the parents asked me to organize the petition and collection of names."

"The petition stresses that the

#### Ask The Times

Q. Could you give me the name of the book upon which the television film "Scarecrow of Romney Marsh" was based?

—M.W.C.

A. The Walt Disney production "Scarecrow of Romney Marsh" was a composite of parts of all the Russell Thorndike "Dr. Syn" stories. These are: "The Amazing Quest of Dr. Syn" (1938), "The Courageous Exploits of Dr. Syn" (1938), "Doctor Syn" (1938), "Doctor Syn on the High Seas" (1938), "Dr. Syn Returns" (1934), "The Further Adventures of Dr. Syn" (1939), "The Shadow of Dr. Syn" (1938) and "Christopher Syn" by Russell Thorndike and William Buchanan (1960). All the Dr. Syn books were published by Rich and Cowan of London, except the one co-authored by William Buchanan.

"We have not covered it at this point yet because the spill over at high water would not be stopped until Saanich covers the creek on its side," he said.

#### MEETING

Alderman W. C. Campbell, chairman of the public works committee, said he plans to meet at the site within a week with representatives of the auxiliary.

"We would all like to see the creek covered," he said, "but it is a matter of money. It would cost \$54,000 to enclose it in a concrete culvert at the school area alone."

"We're working now on a breakdown of the cost to cover the creek throughout Saanich."

#### PEDESTRIANS PRESSED TO SAVE LAMPS

### Walkers Do-Si-Do Along Hillside

Pedestrians walking the new concrete sidewalk between Shelburne and Doncaster on Hillside are doing a double take at the setback lamp standards.

They shouldn't be, says Victoria city traffic engineer David Campbell because the 26-inch setback has been standard in the city for the past eight or nine years.

"Maybe they are being noticed in that area because we only have a six-foot sidewalk as compared with eight or 10-foot sidewalks we have in the downtown area," he said this morning.

"The narrower sidewalk makes the setback a little more obvious."

Mr. Campbell said the original sidewalk on Hillside was four feet wide. The new one is six feet with the light standards set back 26 inches, giving roughly the same sidewalk width for pedestrians.

"It looks a little unusual now, but when the work is

finished there will be a wide band of landscaping to put things in perspective," he said.

Why set the standards so far back anyway?

"It's part of a policy adopted by the city to try and cut down on damage to luminaires by trucks. Tall trucks tend to sway about 12 inches. We found that when the standards were too close to the curb trucks would brush against them with the subsequent shaking of the pole causing up to \$40 damage to the light itself. So we just moved them back out of range."

Mr. Campbell noted that prior to the Hillside job similar setbacks were ordered for the street lights on the Causeway.

"But there's quite a bit of open space there and they aren't noticed," he said. "It will be the same on Hillside when the landscaping goes in."

## NEW TECHNIQUE ELIMINATES LONG WAIT, SEVERE PAIN

### Amputee Walks Hours After Surgery

By JOHN SLINGER

At 10:15 last Friday morning 55-year-old Nils Christofferson was wheeled into surgery at Victoria Veterans Hospital, put under anaesthetic and had his left leg amputated five inches below the knee.

At noon he was wheeled back to his own room and two hours later he awoke.

At 5 o'clock he got out of bed and, hobbling slightly on his artificial leg, made his own way to the bathroom.

An hour later, accompanied by his wife who had come down from their home at Maple Bay, he rode the elevator downstairs, walked out of the hospital some 200 yards to the Red Cross canteen "and had a cup of tea."

Now, one week later, using crutches which he says are mainly for balance, Nils Christofferson has made three trips into downtown Victoria—one night to a bingo game, one night to a Chinese restaurant for dinner.

At the end of August he says he plans to be back at work as a millwright in the Crofton pulp mill.

The operation was performed by Dr. J. D. Warren, an orthopedic surgeon, and Dr. Mark Toone, assisted by G. N. Clayton and O. J. Bell of the hospital's prosthetics department.

It is the first time the technique has been used in Victoria.

The method of fitting an artificial limb right at the time of amputation has been developed in the last couple of years, Dr. Warren said Thursday. Similar operations have been performed in other cities.

"It's really pretty startling," Dr. Warren said of Mr. Christofferson's recovery.

He emphasized that the method, which reduces to a matter of hours what normally would require anywhere from a month to three

months, is still being used on a trial basis.

"Several complications still have to be ironed out."

He said the method could not be used in all amputations at this stage because many amputations result from circulatory difficulties that would inhibit immediate application of an artificial limb.

"And," he added, "you have to have first-class limb fitters."

Mr. Clayton and Mr. Bell, the limb fitters, took rough measurements of Mr. Christofferson's leg the night before the operation.

As soon as the amputation was finished and the skin flaps were sewn over the wound, a sterile stump sock was put on and a plaster wrap put around that.

A harness was imbedded in the plaster and an adjustable aluminum "pylon"—the leg—attached. A rubber foot went on the end of that.

Mr. Clayton said there is a critical period just as the plaster wrap is put on. At that time pressure pads must be applied in exactly the right spots.

"The idea is total contact with a tight wrap," he said.

This eliminates most post-operative pain.

It also controls the initial swelling followed by shrinkage the limb goes through as it heals. It is this change of size that causes the long delay in fitting artificial limbs the old way.

When the stitches are ready to come out of the stump, about eight to 14 days later, Mr. Christofferson will get another leg like the present temporary one.

Eventually he will be fitted with a permanent plastic limb.

Nurses at the hospital joke with the grandfather of 13 as he clips along the hallway.

The ward superintendent said the morning after the operation she went into his room to see how he was and couldn't find him. "I searched high and low," she said. Her patient had gone downstairs for a walk.

He laughed and looked down

#### Brothers Again Switch

The Vancouver sloop Jeunesse skippered by Paul Cote has pulled up from sixth to third place in the 2,300-mile Victoria to Maui, Hawaii, yacht race.

Meanwhile the Vancouver brothers leading the race have swapped positions, with Bill Kilham sailing Porpoise II in first place closely followed by Lot Kilham in Velaris.

The creek starts in upper Saanich, runs through Oak Bay and Victoria.

It is boxed in concrete from Gay Bay up to the Saanich border except for one short stretch near Foul Bay Road, says Victoria city engineer James Garnet.

"We have not covered it at this point yet because the spill over at high water would not be stopped until Saanich covers the creek on its side," he said.

MEETING

Alderman W. C. Campbell, chairman of the public works committee, said he plans to meet at the site within a week with representatives of the auxiliary.

"We would all like to see the creek covered," he said, "but it is a matter of money. It would cost \$54,000 to enclose it in a concrete culvert at the school area alone."

"We're working now on a breakdown of the cost to cover the creek throughout Saanich."

FLEET SPLIT

Thursday's best run was put in by Velaris which clocked up 160 miles while Porpoise III made 150 miles. Tiffany from Victoria moved up the standings to 10th position with a run of 148 miles.

The weather map shows a large high pressure area lying on an east-west axis across the fleet with light winds even in the trades. At present it appears the fleet will not experience the normal 20-25-knot trade winds until they are some 500-600 miles from the finish.

at the leg on which he was wearing a brown Hush Puppy.

A sergeant major in the Canadian Army, the Norwegian-born Mr. Christofferson was wounded in the ankle in 1944.

'Fifteen months ago infection set into the old wound and gave him so much pain he couldn't stand on it.

"I was afraid to go into the

hospital," he said, "because I was afraid of being in bed for such a long time."

When Dr. Warren told him that with the new method he would be on his feet the next day, it sounded ideal.

"He said I would walk the next day. Well, I walked the same day."

Dr. Warren said his patient's morale "is just fantas-

tic" and said the rapid fitting could help overcome depression that often accompanies amputations.

Under federal health department regulations, the facilities and staff of the Veterans' Hospital prosthetics department are being offered to any civilian hospital on the Island that wants to perform similar operations.

## Shingle Workers Rap IWA Pact

### Better Agreement Sought by Union

By ROGER STONEBANKS

A split within the International Woodworkers of America over the proposed new coast contract with 114 timber companies took on a new dimension today.

Another union, representing 400 shingle mill workers at four plants, including two in Victoria, publicly offered to "join forces with any interested group

of individuals in this industry to bring about an agreement that meets the needs of all concerned."

The Shingle Weavers Union, a section of the United Brotherhood of Carpenters, expressed "deep disappointment" at the proposed IWA settlement which included a 36-cent hourly pay raise over two years.

Duncan local president Weldon Jubenville also opposed the settlement.

**'COMPLETE REVIEWS'**

The Shingle Weavers Union, which represents employees at Smith Cedar Products and McCarter Shingle and Shake in Victoria, said a suitable agreement in this section of the industry must include a "complete pay review."

The IWA settlement, which accepted would affect the majority of shingle mills on the coast, includes provision for minimum guaranteed daily earnings in the shingle and shake industry.

To that end, if your members employed in this industry are prepared to reject the general terms of settlement offered in your negotiation, we in the Carpenters-Shingle-Weavers are prepared to enter into a cooperative area of negotiations to arrive at an agreement suitable to the needs of the workers in the shingle and shake industry."

#### ON VACATION

There was no immediate reply from Mr. Moore, who has left for a vacation. The proposed IWA settlement saw him break a 5-to-5 tie by the negotiating committee to recommend acceptance to 26,000 logging and millworkers, including those in shingle mills represented by the IWA.

In other developments today, 530 loggers at four northern Vancouver Island camps who went on strike Thursday returned to work.

The men, employed at Beaver Cove, Woss Lake, Nimpkish and Vernon Lake, said they were dissatisfied with the proposed settlement and demanded the resignation of Mr. Moore.
